THE PESSIMIST

(Duncan P. Cameron) 'The Times are decadent. There is lawlessness everywhere. Children no longer obey their parents. The end of the age is at hand.' That is a very modern paragraph. Any person moderately well informed in present day theological thought could pick out instantly what school of theology produced it. He could probably tell you from what city in the United States it issued, and the very printing press that sent it forth. He could name you a half dozen of the best known men whose names are connected with that school.

He would be both right and wrong. He would be right in picking these words as representative of the mind and utterances of a certain school of theology of our own time. He would be wrong in ascribing these words to a very modern school. These words are very old. They were inscribed on a brick which was moulded and burned in the valley of the Euphrates before the time of Abraham. For hundreds of years that brick filled its place in the walls of a temple there. For thousands more it lay buried in heaps of ruins. Then it was dug up by the excavators of an Anglo-American expedition. And what the discoverer translated it he set down weakly and said: 'Gosh but this makes me feel homesick. It makes me think I am back in the prayer meeting in the old Elm town church.' Uncle Ezekiel (and 'Uncle Zeke' we used to call him) telling how much worse the world is now than when he was a boy, and prophesying how it is all going to kersnash one of these days pretty soon. I used to think that was a very old and original idea with old Uncle Zeke. But here is this old chap in Babylonia who said exactly the same things more than four thousand years ago. Surely there is nothing new under the sun!

The excavator was right, there is not much new under the sun. Pessimists do not rank as a new discovery. They have always been and always will be. When in the early years of the human family some bright mind discovered the use of fire, and how much better cooked meat tasted than raw, there is not the slightest doubt that some other bright mind discovered something about the degeneracy of these later days, and the young chaps preferring burnt meat to that which was juicy and raw just as it was torn from the victim. It is the way of the pessimist.

Some people enjoy being pessimists. They are that way by nature. They feel that everyone has a price and that 'there must be something in it for you or else you would not be concerning yourself with the troubles of other folks.' There are certain people that take a melancholy delight in prophesying disaster and throwing cold water on people's happiness. Other people look upon it as ominous to be always anticipating disaster. Out of some old heathen superstition handed down to them from their ancestors they conceive of God as jealous of any joy they may have as grudging them any pleasure, so they mask their happiness by foretelling the unhappiness that is bound to follow. That is a sort of felix to ward off the spite of a malicious God. In China it is almost universal to give a child some foolish fictitious name, in order to deceive the deities who might otherwise work him some mischief. Pessimists, Christians have not got very far from the heathen Chinese idea of God.

Naturally as men grow older, if they cultivate this mood, it grows upon them until it becomes the one theme of their conversation. We are all inclined to sorrow over childhood and youth with a golden mist, through which we see things in a very different light and color from what we saw them at that time. And thinking back to our own boyhood we are prone to glorify it and to deary and deprecate the youth of today. If by constitution and education we are at the same time pessimists we are apt to be determined in our habit of old cronies, always preaching blue rain and crying down the age in which we live.

This talk about times being decadent and lawless, being rampant and the existing conditions being children's old, before the morning stars sang together for Abraham's benefit it was the conventional talk of the pious and good. That new when he wrote or quavered doggerel letters on a brick more than four thousand years ago the words which lead this article. He just wrote down what was the conventional pious talk of a certain group of pious people of that time. Because things were not as they should be, he felt the world was coming to an end very soon. Well it has been jogging along pretty well on this earth ever since. It had not been as close as he thought and it may not be as close as some of our friends think today.

Religion, customs and manners are not the same as they used to be. They are existing in new forms, expressing themselves in new terms. They are throwing away the old garments and taking on new ones. All that they are saying off is not outward. But on the whole the quality of our life is greater than the losses. And in spite of all the battle and struggle, the testing and turmoil we are passing through, let us be glad in the day in which we live, let us not under the times which we ourselves have made. But rather let us repeat joyously day by day: 'Thou wilt keep him in perfect peace, Whose mind is stayed on Thee.'

Farmers Order. Farmers of the Cottage Grove district have ordered a carload shipment of all kinds of cultural lime to be delivered from the state lime plant at Salem. The orders were placed through the county agent by W. S. Averill, instructor in the agricultural department of the high school.

Grand Master to Visit. Fred J. Meindl of Salem, grand master of the Oregon I. O. O. F., will pay an official visit to the local lodge Saturday night, and families and friends of Old Fellow members are invited to attend Delegations from Elkton, Drain and Creswell will be here for the meeting.

Uncle Eben. 'De world is round,' said Uncle Eben, 'an' science tells us it wills mighty fast. We might as well consider ourselves lucky dat none of us slips off.'—Washington Star.

VENEER FACTORY WILL LOCATE AT SPRINGFIELD

The Willamette Valley Veneer Company has announced that it will establish a plant on Springfield's industrial tract. Work will start at once upon the first unit, which will cost about \$50,000 and will include a main building, 60 by 100 feet in size, and drying sheds 250 feet long and 14 feet wide. Experts at Oregon State Agricultural college are seeking to determine the best type of drying kiln for this plant, and when their work is complete the construction of the kilns will start. It is expected that 100 men will be given employment.

Holy Week Services Continue. Large numbers are attending the Holy week services being held at the Presbyterian church. Pastor Duncan P. Cameron will preach tonight on 'Jesus in Retirement,' and Friday night on 'Jesus in Agony.' A communion service will follow the Friday meeting. Pastor Cameron preached last night on 'Jesus in Retirement,' showing that prayer, meditation, courage and faith are necessary in a Christian's life.

Vital Statistics. If it weren't for the bride and groom, every wedding would be a success.

YOUR HOME TOWN PAPER

Old ideas cling to most of us like ivy to a stone wall. Old prejudices are hard to down—and because of these failings, most of us go through life missing a lot that makes existence very much worth while for others. In the back of the minds of many persons is the vision of the old-time home town newspaper. They fail to realize that, as with everything else, home town journalism and printing craftsmanship must keep in step with the march of progress or fall by the wayside. To these persons let us admit that we could be no more content to read in 1929 a 'country paper' of 1890 than could they. But—

HAVE YOU SEEN THE SENTINEL LATELY?

The Sentinel always was a good newspaper—now it's a better one. Even as a cross-roads weekly it was the leader of Lane county, and now, as an eight-column weekly it holds its place.

Citizens and Laws

Every town has some citizens like some laws. They won't work, and nobody respects them, but they live on because nobody has the energy to kill them.—San Francisco Chronicle.
