**General Grant's Hobby**  
Gen. U. S. Grant's keen interest in trees was well known. On a trip around the world following his Presidential term, the crowning event of the reception ceremonies in the cities he visited was said to be the planting of a tree.

**Drugs and Cut Flowers**  
The effect of aspirin and 43 other chemicals when placed in water containing cut flowers was tried by two botanists in a series of tests, and they report that these substances do not aid in increasing the life of cut flowers.

### Simple Questions That Often Prove Pitfalls

Why is winter colder than summer? How deep does a scuttled ship sink, and why does the air in a closed room get bad?

A recent examination of presumably well-informed people revealed that many a man of more than average education can be caught in pitfalls of ignorance.

Most people were caught over the first question. More than four-fifths said that winter is colder than summer because the sun is then farther away. But, of course, is wrong, the sun being nearer in winter. The real reason lies in the earth's changing slant, which brings the sun directly overhead in summer and lower in the sky in winter.

Surprisingly common, too, was the idea that sunken ships do not go to the bottom, but float at some midway level. Heavy objects sink because they are denser than water. A ship sinks to the bottom because water's density remains virtually unchanged despite the enormous pressures encountered at great depths.

Air in a closed room gets bad because of the gradual exhaustion of the oxygen contained in the air, and not, as many people suppose, because of carbon dioxide gas exhaled by its occupants.

**Idea, Foundation of Law, Traced to Democritus**

In 1720 Francis Hutcheson, in his "Inquiry Into the Original of our Ideas of Beauty and Virtue," wrote: "That action is best which procures the greatest happiness for the greatest numbers; and that worst, which, in like manner, occasions misery." This is the earliest known use of the phrase "the greatest happiness of the greatest numbers." It was used by Cesare Beccaria in his "Treatise on Crimes and Punishments," first published in 1764. Later Jeremy Bentham, the English political philosopher, wrote: "Pleasure was the first (unless it was Beccaria) who taught my lips to pronounce this sacred truth—that the greatest happiness of the greatest number is the foundation of morals and legislation." The general idea conveyed by the phrase, however, is found in the writings of some of the ancients, notably Democritus.—Pathfinder Magazine.

**Term of Uncertain Origin**  
Authorities have never definitely traced the origin of the term "grass widow." It is to be found in many languages. Some believe that it is a corrupted form of "grace-widow"—that is, "widow by the grace of circumstances." There are no facts to substantiate this belief, however. According to Doctor Brewster, a modern use of the term seems to have originated among the Anglo-Indians about the middle of the Nineteenth century from the practice of European husbands sending wives to the hills during the hot season in India. In this section the grass is plentiful.

**First Excursion Train**  
On July 5, 1841, when a "Puffing Blower" hauling two dozen open railway "carriages"—they were called "tubs" at that time—steamed out of the station at Leicester, England, bound for Loughborough, 11 miles away, it marked an occasion of great railway annals: for it was the first excursion train ever run.

The train carried 570 passengers to a temperance meeting, and the organizers of the excursion were Thomas Cook, then a young printer of Market Harborough, later to become famous as the promoter of Cook's tours.—Detroit News.

**On Friendly Terms**  
He had never been outside England, and neither had she, but both were recounting their experiences abroad.

"And Asia! Ah! Wonderful Asia! Never shall I forget Turkey, India, Japan—all of them. And most of all China, the celestial kingdom! How I loved it!"

She held her ground.  
"And the pagodas—did you see them?"

"Did I see them?" She powdered her nose. "My dear, I had dinner with them."—London Tit-Bits.

**Reward**  
When Admiral Hussey spoke his piece at the luncheon of the Women's Republican club, he opened up with this story:

"In a western town, a man rushed into the sheriff's office and demanded a warrant for the arrest of a murderer."

"Whom did he kill?" demanded the sheriff.

"A public speaker!"

"What you want," replied the sheriff, "is not a warrant for anybody's arrest but an order on the county clerk."—Los Angeles Times.

**The Helping Hand**  
Sergeant Simpson was talking seriously to a new recruit.

"Under comradeship," he continued, "you put all that one man would do for another. For example, Smith, what would you do if your chum had his breakfast on the table, his buttons not cleaned and the bugle went for parade?"

"Well," he said, "I'd eat his breakfast so he could clean them buttons all right!"

**Domestic Recitals**  
Husbands differ. One may be sympathetically interested in his wife's recital of the day's domestic trials; another not. It is a matter of temperament, not of love.

**General Grant's Hobby**  
Gen. U. S. Grant's keen interest in trees was well known. On a trip around the world following his Presidential term, the crowning event of the reception ceremonies in the cities he visited was said to be the planting of a tree.

**Drugs and Cut Flowers**

## SCHOOL BONDS CARRY BY VOTE 110 TO 41

That Cottage Grove believes in adequate support of its schools was evidenced Monday when a vote of 110 to 41 was cast in favor of a proposed issue of \$10,000 in bonds for a four-room addition to the central grade building.

The school board is already getting plans into shape to call for bids.

The addition will be used to house grades which have been in the high school building, and space will be thereby released for high school classes. The home making department, now housed in the gymnasium, will be moved to the high school building.

**Brannan Defeats Smith**  
In Six-Round Match

Irish Brannan of Eugene won in the fourth round from Fred Smith in a scheduled six-round fight last night at the west side gymnasium. Smith substituted for Bill Collins who was unable to go on. Smith showed himself a clever fighter. Brannan had more punch.

Smith has been out of the ring for four years and lack of practice showed him down. Brannan showed plenty of ring generalship.

Skippy Morgan was given the decision over Harley Harlan in a four-round bout. Morgan put Harlan through the ropes in one round and held an advantage over his opponent throughout. Harlan showed more inclination to wrestle than to box.

Ray Brown won a decision over Ted Collins in a four-round preliminary that was filled with action. A good free-for-all and a snappy finish.

A large crowd was in attendance.

**Astral Visitor Is Seen**  
By Few Here

Few here saw the unusual meteor which fell at about 9 o'clock Sunday night and was visible in practically all parts of the state. University of Oregon professors have said that it is unusual for a meteor to be visible so early in the evening, the time having been between dusk and dark, but because of the meteor falling in a north westerly direction from here the smoke which was visible in the sky for 15 to 20 minutes was lighted by the sun, which was invisible in Oregon at that time of day. It is unusual for the smoke of a meteor to remain visible at all and almost never for any length of time. The smoke was said to have formed in the shape of a question mark.

C. M. Shinn was one Cottage Grove resident who saw the phenomenon.

**Traffic Fines Paid.**  
Three traffic fines were the total receipts of the police court last week. Nora Brest, —, Wicks and Merville Veatch each left \$2 with the court for minor violations of traffic laws.

**Sunset Trail Pageant Boosted.**  
Fred Beard and Hugh Rossion of Eugene, representing the Sunset Trail pageant to be staged in Eugene the latter part of July, were speakers at the Lions club luncheon today. They requested that Cottage Grove be represented in two parades, one on each day of the pageant.

**Shaw to Speak at Turner.**  
Rev. I. G. Shaw of the Christian church will speak July 2 on "The Gospel and World Peace" at the state convention of the Christian church which will be in session at Turner June 29 to July 7. Rev. Shaw has also been asked to teach the men's class on July 8. Rev. and Mrs. Shaw and two sons, Jack and Miss Gatten will leave Sunday for the convention.

**Songs of Satan**  
The philosophy of the Salvation army is never to hesitate to adopt the airs of ribald songs for its choruses, on the theory that the devil shouldn't have all the good tunes.—Woman's Home Companion.

**Bad Spots in Oceans**  
Probably the roughest bodies of water in the world are the bay of Hiscay and the waters immediately surrounding Cape Horn. Some of the roughest and highest breakers are found off the coast of Guinea.

**CARD OF THANKS**  
We extend our sincere and heart-felt thanks to all neighbors and friends for their many acts of loving kindness and sympathy for the beautiful flowers and especially to those neighbors who were present in the last moments of our dear friend, Mrs. C. Richardson.

MISS JANET DAVIDSON, sister of Mrs. C. Richardson, FRANK MILLER, MISS MRS. J. H. PARKS.

**NOTICE.**  
The law requires all owners or keepers of dogs to get a license before March 1 of each year, or render themselves subject to a fine, and, also, make it lawful for the enforcement officer to kill your dog. The license fee for a male dog is \$4 and for female is \$5, except that a person has a license after securing a dog to get a license at the rate of \$2 and \$3, and a person, also, has 30 days to get a license after a pup becomes eight months of age.

### Water Users! Fix Your Plumbing!

The city is installing a large number of meters and users are advised that it will be a wise precaution to have plumbing in repair. In several instances the installation of meters has shown that users are consuming in a week as much water as they should consume in several months. This use of water will be expensive after meters are installed. The city has no desire to charge a customer for more water than he actually needs, but will be required to charge whatever the meters show. Users of water should understand that waste of water is prohibited and flat rate users should have their plumbing in such shape that they will not be subject to fine.

### Vitamins

Vitamins are food substances which are to the human body what sparks are to the automobile. They are found in the natural foods. Foods highest in vitamins are milk, butter, eggs, calves' liver, vegetables, whole grain cereal and fruits.
