

Steady and Continuous Growth

For nearly 40 years this bank has been building as the community has built. During good seasons and bad its growth has been continuous. Deposits that started with a few thousand dollars when the city was small have grown to half a million in checking accounts and \$335,000 in time deposits. These deposits show the solid condition of the community, just as the record of deposits show the solid substantial condition of this old reliable banking institution. There has been nothing startling in our growth. It has been as continuous and as steady as has been the growth of the community of which the bank is an integral part. We see a bright future for our city and hope to have a dignified part in promoting that growth by offering the best that it is possible to offer in the conduct of a conservative, sensible banking business.

The First National Bank Of Cottage Grove

Capital \$50,000

Surplus, \$25,000

City Briefs

Ralph Chestnut, who has been home from Medford for two weeks recovering from an illness, is able to get down town once in a while.
