

To the Woman of the House

No need to be embarrassed through the lack of foresight on the part of friend husband in not leaving enough money for expenses of the day before he leaves for work or the office. Open a checking account in your own name, with definite amounts to be added at definite periods by the master of the house, and pay your bills by check.

Have you often wondered whether or not you have paid a bill twice, but did not wish to question the honesty of the one to whom the money was paid? Paying by check relieves all this doubt and makes long friends. You don't hesitate to show that a bill has been paid, if you have a check stub that it has been paid, or even have the check stub, and the person to whom the payment was made is not offended when a cancelled check proves him in error. Every housewife should have a checking account with this old reliable bank.

College Men Win Honors

Sand Used as Defense

The expression "Throwing sand in their eyes" is said to have had its origin in southern Siberia, where the tribes depend for safety largely on the fleetness of their horses. The land is very sandy and the method of repulsing an opponent was by means of a handful of sand tossed at him, with the result, if the aim was good, of at least temporarily bewildering and blinding.

Cottage Grovers Hold Annual Portland Picnic

The Cottage Grove association of Portland, which consisted of former Cottage Grove residents, held its eighth annual picnic Sunday in Peninsula park in Portland with 145 present. The association meets the last Sunday of August each year.
