For Cottage Grove Merchants Only

Being one of a series of chats with Cottage Grove businessmen in which they are told how they can increase their volume of sales.

Turning S-L-O-W Sales Into *Quick* Turnover

In this, the last of a series of six advertisements, the basic idea advanced in the preceding five is emphasized. That idea, simply, is this:

You've got to put forth every effort to keep Cottage Grove's [illegible] coming to your stores and buying in your stores.

Advertising in your local home newspaper can help accomplish that aim. Not only your own advertising, but the advertising of the manufacturers whose goods you stock as well.

You cannot get the advertising support of these manufacturers merely by wishing for it. You've got to make the manufacturers realize how necessary it is to you, if you are to sell their goods successfully.

And you can make the manufacturers realize it by selling their salesmen who call on you in Cottage Grove—by interesting them in Cottage Grove as an outlet for your merchandise—by interesting them in your local, home newspaper as the means to more sales of your merchandise in Cottage Grove.

This is an opportunity, you merchants of Cottage Grove, that you should make the most of, one that may mean all the difference between slow, infrequent sales and quick, profitable turnover.

You need the advertising aid of the manufacturers whose goods you stock—urge their salesmen to recommend your local home newspaper.

U. S. Poultry Fence

"The Netting That Stands Alone"

Saves You Money!

You'll like U. S. Poultry Fence better than any poultry netting you've ever used. For, like farm fence, it stretches straight and true from post to post without bagging or sagging. It requires neither wood top rail nor baseboard. U. S. Poultry Fence cuts costs. It saves the price of unnecessary lumber. It saves time, labor and expense in building. And, with all its superiorities, it costs no more than ordinary netting.
