Green All Right

A department store executive relates: "We put a green boy in the shoe department yesterday. A lady came in and said she wanted to see misses' mules. 'I don't think Mrs. Mules works here,' said the boy—Exchange.

Ancient Rhinoceros

The carcass of a large rhinoceros about one hundred thousand years old was found two or three hundred feet underground in an oil field in eastern Galicia. A geologist who examined the animal gave it as his opinion that the giant prehistoric beast had drowned in a bog. The hair and hide of the animal were still in fairly good condition.—Pathfinder Magazine.

Idea of Liberty Imbued in Youthful Colonials

The subject of coasting inevitably recalls the ancient tale of the ashes on the slide, of pre-revolutionary days in Boston. That yarn is given, in its original and presumably authentic form, in a letter written by John Andrews of Boston to William Barrell on January 29, 1775. Andrews wrote:

"I shall close this by giving you a small anecdote relating to some of our school lads—who as formerly in this season improv'd the coast from Sherburn's hill down to School street.

"General Haldiman, improving the house that belongs to Old Cook, his servant, took it upon him to cut up their coast and fling ashes upon it. The lads made a muster, and chose a committee to wait upon the general, who admitted them, and heard their complaint, which was couched in very genteel terms, complaining that their fathers before 'em had improved it as a coast from time immemorial, etc. He ordered his servant to repair the damage, and acquainted the governor with the affair, who observed that it was impossible to beat the notion of liberty out of the people, as it was rooted in 'em from their childhood."

The house of Gen. Frederick Haldiman, who couldn't have been such a bad fellow, was on School street at the present site of the City hall, as a tablet on the fence tells today.—Boston Herald.

Impossible to Exhaust Trinidad Asphalt Lake

Oil was first found in Trinidad in 1859, but there were no roads, and the supply did not seem large enough for export. That spring is still running, though many people are at first unwilling to believe that oil of such quality can be found in a natural state. A bountiful providence has endowed Trinidad not only with oil but with asphalt, which is contained in a vast lake known as the Pitch lake. This lake is so solid that you may walk on it, and tram lines, along which the excavated asphalt is transported, are laid on its surface. It is, nevertheless, in constant motion, and the holes made by a day's digging fill up with unexpected rapidity. The streets of London, and of many other great cities, are paved with the product of this extraordinary lake.

The Easiest Way

Too many people are absolutely indifferent to work. They take no interest in doing it exactly right, in doing it quickly, or getting it out on time. Life to them is just one long-drawn-out dream of "getting by" in the easiest way, and with as little exertion as possible, of either mind or body. Their idea seems to be "To Let George Do It." Again, there are others, splendid examples of the kind of people who know what to do, and have the capacity and willingness to do their part. All such are great factors and forces in making a business go and grow.—New Albany Tribune.

Gone to the Dog!

The self-assertive man in the corner seat was talking to a friend. "Yes," said the loud-voiced man, "I always bring my dog in the car with me and then I know what he's up to. I allowed him to travel in the baggage car once, and had to pay for a lot of stuff he was supposed to have eaten!"

The train slowed down, and then the friend spoke.

"Since you know what your dog's up to," he remarked, quietly, "I suppose you know he's half finished the fish you're taking home?"—London Tit-Bits.

Too Careful

A government official who wished to keep his wife in ignorance of the amount of money he had, hit upon a bright idea. He put his wife in an official envelope, addressed to a man higher up. If his wife should find the envelope in his pocket, she would never think of opening it.

One day he missed the envelope and asked his wife if she had seen it.

"Yes, dear," she replied, "I came across it in your old coat. I've just mailed it."

High Hopes Faded

Recently at a fashionable ball a young woman who had been sitting out several dances in a row was delighted to see one of the handsomest men in the room approaching.

He halted before her. He bowed. "May I dance with you?" he asked.

Smiling, she arose, prepared to trend a jazzy measure.

"Ah, thank you," said the man, and picked up a Spanish shawl upon which she had been sitting, and went off with it.

Famous French Cathedral

The Reims cathedral of the Thirteenth century, although it lacks the towers of the original design, is one of the finest specimens of Gothic architecture. It is 453 feet long. The elaborate west facade with its 500 statues and rose window is familiar by photographic reproduction to practically all of the civilized world. This facade is flanked by two towers. The cathedral is famous as the church in which the French kings were crowned.

Ideal

A number of women, in various walks of life, were asked to state what they considered to be woman's ideal age. The answers ranged from eighteen to twenty-five, but the prize went to Clara Bow, who wrote:

"Thirty is a nice age for a woman, especially if she's forty."

By No Means

When a man's temper is bad, says an eastern psychologist, he should banish the household bog by telling a joke. What usually happens when a man's temper is bad is that his wife tells him he is a joke. But this doesn't flood the home with sunshine as much as might be expected.—Detroit News

Eastern Stars Hold District Meeting Here

A district meeting of the Eastern Stars was held Tuesday night in Masonic hall, Cottage Grove and Creaswell chapters joining for the meeting. Mrs. Elizabeth Tipton of Portland, worthy grand matron of the grand chapter of Oregon, made her official visit, complimented the Cottage Grove chapter on its work and congratulated the chapter on its golden anniversary. Cottage Grove being the second chapter in the state to have achieved this distinction. Mrs. Mary Ellen Williams of Junction City, grand organizer, also visited. A number of members of Evangeline chapter of Eugene, including Mrs. Susie Gerot, worthy matron, attended the district meeting. Creaswell chapter, with Mrs. Lydia Davidson, worthy matron, and C. W. Dixon, worthy patron, presiding, opened and closed chapter and escorted visitors to the east. Degree work and balloting were exemplified by Cottage Grove chapter. At the close of the meeting a number of talks were given. Rev. Duncan P. Cameron gave the address of welcome and Mr. Dixon the response. Carl G. Tipton, husband of the worthy grand matron, a past patron of Martha Washington chapter in Portland and head of the Order of Rainbow for Girls in Oregon, gave a brief address. Creaswell and Cottage Grove chapters presented an attractive gold bowl to Mrs. Tipton. The chapter room was colorful with baskets of Scotch broom. Refreshments served at the close of the meeting. Hostesses were Mrs. Merville Veatch, Mrs. Frances Nichols, Mrs. Donnell Allen, Mrs. W. J. White, Mrs. George Bjorset, Mrs. B. Arnest, Mrs. John Dugan, Miss Myrtle Kern, Mrs. A. C. Spriggs. Evangeline chapter of Eugene extended an invitation to the group to attend a district meeting to be held there Wednesday.

Battery Again Shows Marked Improvement

Colonel Clifford Irwin of Salem, commanding officer of the 249th coast artillery, of which the local battery is a unit, visited battery "E" at its regular drill Tuesday night and expressed himself as satisfied with the showing of the unit, saying that the battery showed marked improvement. Artillery and infantry drill were exemplified for the commanding officer. Forty-eight enlisted men and three officers were in attendance.

Lieutenant Claude Washburne of Junction City, Sergeant Frank Jerac of Salem, regular army instructor for coast artillery, and F. E. Mendenhall and Ed Wiese of this city also visited the battery Tuesday night.

Sam Schwartz and Ivan Currin, who took examinations last week for commissions as first lieutenant and second lieutenant, have received word that they passed successfully.

Defy Passing Years by Right Way of Thinking

But why look old? That, says some one, is all nonsense. But is it? They do say we are as old as we feel, and that's about the truth of it. Of course, we change as time passes. That must be admitted. Yet the change need not be at so rapid a rate.

Even then we ought to show the change very much less than we do. You know the gentle shock we sometimes get when we run across a person we haven't seen for years. There is a definite, a marked change in him. It depresses us; because our thoughts immediately turn to ourselves.

Many grow old, as we all know, long before their years. The face is a remarkable index to the mind. If there is a lack of faith, or control, sure enough we shall show it in our eyes, our lines, the poise of our head—even in our hands. Many people add to the diseases of the mind such other things as gloom, discontent, pessimism, fear.

Beauty, we are always told, is only skin deep. Beauty—real beauty—is soul deep. Only we get the right way of thinking, we shall never look old.—London Tit-Bits.
