A large number attended the Knights of Pythias and Pythian Sisters picnic Sunday in Hanna grove on Row river. Those attending took basket lunches, and coffee and ice cream were served. Swimming and horseshoes were features of the day's entertainment.

German Spring Festival. In old Germany the festival of spring was something of a coarse variety. The villagers built about one of their number a frame of wood, into which they fastened garlands and boughs until he was completely camouflaged, not even the little bell over his head showing through the flowers.

With shouting he was led into the village, where the magistrate and the minister and others in authority were sitting on an improvised throne. Then the guessing began. When the magistrate failed to speak the name of the Wicker Whitsuntide Man, he paid to the crowd in beer. So it went with the others, until with great hilarity the man was found out.

Costly Criticism. Paul Gauguin was staying at Pont-Aven, in Brittany, in the summer of 1880, and painted there his famous portrait of "La Belle Angele." La Belle Angele, wife of Satre, mayor of Pont-Aven, never saw her portrait till it was finished, when she exclaimed, to the dismay of the artist: "How terrible!"

She refused it as a gift. Degas bought it, and after his death it was sold for several tens of thousands of francs, somewhat to the belated dismay of Mme. Satre.—Kansas City Star.

Mystery Solved. A customer once entered a New York bookstore and asked for "The Red Yacht." The clerk looked puzzled. He had never heard of the title and asked what the book was about. "It's poetry, and recommends you to burn up your old clothes in the spring." A little thought; and the line—"In the fire of spring your winter garments of repentance fling." Yes, it was "The Rubaiyat."—Literary Digest.

A slice of orange makes an excellent cleaner for patent leather. A soft cloth is used to polish it when dry.

Correct this sentence: "Yes, I really made a hole in one, but it was merely luck."

**Airport Improvement Planned.** Considerable improvement is planned for the federal airport, south of this city, and a government crew will come here from Yoncalla, where they worked last week. The airport beacon will be raised to 125 feet, markers will be painted and placed and the field will be cleaned and rolled. Work will be under the direction of Mr. Dulin of the airways service.

Crowe, county commissioner, who was in the district Saturday on an inspection trip. Lane county and the Umpqua national forest service are cooperating, each contributing \$4000. Last year a similar cooperative program was put through.

From the standpoint of color and vitamins, green vegetables are much superior if cooked only until tender and no more, which for most leafy vegetables is usually 15 minutes. The use of an open kettle also helps to preserve the color.

**Chesterfield**

**MILDER, YES—BUT SOMETHING MORE.** Chesterfield offers richness, aroma, satisfying flavor.

**BETTER TASTE**—that's the answer; and that's what smokers get in Chesterfield in fullest measure—the flavor and aroma of mellow tobaccos, exactly blended and cross-blended. Better taste, and milder too!
