TEXACO SERVES THE WORLD

The opening of Texaco's new \$10,000 SUPER-SERVICE STATION in Cottage Grove is but another link in their chain of outstanding stations over the entire world. This is the first petroleum company to establish retail outlets so that the motorist can be served in Oregon, Maine, Florida, California and the rest of our glorious United States. Besides, be you in Sweden, Russia, Australia or South America, you will receive the same high grade Texaco products as you do right here at home.

Within the next year, The Texas Company plans covering every National and State Highway so the motorist cannot go more than 25 miles in any one direction without seeing a Texaco Service Station. There is no other company which can hope to offer you a similar convenience.

Remember, the Sun never sets on Txaco's familiar trademark — "THE RED STAR WITH THE GREEN T."

R. E. GLASS, Agent
