We're Screened Off From The Public

In the conduct of our business, but that's merely for protection of the funds and valuables entrusted to us by our customers. Our inclination is to be as sociable with customers as the demand of business will permit. The nature of the banking business makes it appear that your banker is screened off from you, but we want you to feel that in the Old Reliable our time is yours for whatever banking service you need and we are pleased to take whatever time is necessary to talk over in an intimate way your banking or business problems, whether or not directly connected with our banking business. Safeguarding a trust is our first business. Nothing will be sacrificed to that, but beyond that we are just common people ready to meet one and all on common ground. We want the Old Reliable to be also known as the Friendly Bank.

CIGARETTE smokers owe a lot to Turkish tobacco, for it was cigarettes made out of Turkish tobacco that first became the vogue in this country. Then it was found that a blend of Turkish and Domestic tobaccos was better than either kind of tobacco straight. It takes just the right amount of the right kind of Turkish tobacco to give a cigarette better taste. For Turkish tobacco is to cigarettes what seasoning is to food—the spice—the sauce. You want enough but not too much. There is just enough Turkish in CHESTERFIELDS to give them a better flavor, a more pleasing aroma; to make them taste better.

Turkish tobacco must pay an import duty of 35c a pound; but cost doesn't count when it comes to making CHESTERFIELD the best cigarette that science and money can produce.
