EUGENE'S HIGHWAYS.
According to the Eugene News, ordinarily reliable morning newspaper of the county's capital, the bureau of public roads has done Eugene an irreparable injury by showing highway 28, which is the New York to Florence highway, although New York may know little about it, as running from Eugene to Drain and thence down the Umpqua.

The bureau of public roads seems to have done even worse than the Eugene newspaper claims, for it seems to have made a special map that has been distributed in Eugene only. The recent issue of maps distributed elsewhere shows the New York-Florence highway running exactly as it should be, but it is a map that shows the route of the highway as it is now, which is just as certain to get the soldiers' home as it is certain that the new highway maps show the New York-Florence highway running by way of Drain.

planation, but there is another possibility. The number of the N. Y. F. between two points is given as 2.8. Eugene may have taken these figures to indicate the number of the highway, and may have overlooked the much larger figures that denote the N. Y. F. highway running by way of Junction City. Eugene frequently sees the little things and misses the big ones.

Incidentally, why call it the New York to Florence highway? Why not the Florence to New York highway?

Since the above was put into type the chamber of commerce at Florence has raised a furor about the supposed change in the routing of highway 28, so it may be that Cottage Grove was the only city to receive maps with the highway properly located.

THE OLD GRAY MARE.
The old gray mare may again some day be what she used to be. Eugene has been running a recently adopted resolution asking the county to use teams instead of tractors on road work.

While the district army engineers have made no statement, it is expected that their report on the Willamette canalization project will be favorable. Q. H. Harlan, secretary of the Eugene chamber of commerce, said Saturday, Mr. Harlan was in Portland Friday and met with the engineers to assist in interpreting data.

Slight Business Boost For Operators in Pine
Portland, Ore., April 25.—The 127 mills reporting to the Western Pine association for the week ending April 9 operated at an average of 18.3 per cent capacity as compared with 15.7 per cent the previous week, and 10.3 per cent for the year to date.

Manhattan's richest Protestant church cut salaries 10% recently.

Radio Ray Has This to Say:
HOWDY FOLKS—A comedian says that there are not any more Scotch jokes. Maud Mullins says it isn't that the people are so thrifty nowadays that Scotch jokes have lost their point.

AND WE ARE SEEING MORE AND MORE THIRTY FOLKS AS THESE DAYS WHO COME IN TO BUY ELECTRIC LAMPS AT 15c EACH (IN LOTS OF SIX).

People who live in glass houses must be tired of reading funny paragraphs about themselves.

A naturalist says that the polar bear has nature's best winter coat. And the moth's have ours.

Truck Driver A. La Mode. News item—A western truck driver was buried under a half ton of ice cream when his machine collided with a bus.

Judge, "But, madam, how could you marry a man you knew to be a burglar?" Witness, "Oh, he is so quiet around the house."

TAKING THE AUTO.
We must recognize the fact that if the national budget to be balanced is going to have to pay taxes, it is not likely that any tax proposed will be popular.

Every one proposed has met with opposition from those affected, so that it was not to be expected that the proposed tax on motor vehicles would be received with anything resembling loud acclaim.

In "This Curious World" cartoon there appeared a few days ago the information that a tree cut in Oregon had 12 charcoal rings, showing that it had survived 12 forest fires.

The chin is 25 per cent of golf foot length for professionals. If that is true, there are golfers who will never play more than 25 per cent of a game.

Favorable Report Is Expected on Canal Job
While the district army engineers have made no statement, it is expected that their report on the Willamette canalization project will be favorable.

Production for the week amounted to 24,834,000 feet, and shipments totaled 36,293,000 feet and orders 35,694,000 feet.

Manhattan's richest Protestant church cut salaries 10% recently.

Atlanta, Ga., has the lowest rate (\$52.16 per pupil) for educating children.

President Jefferson inherited from his wife 40,000 acres and 135 slaves.

Sir Malcolm Campbell's racing car (\$115,000) travels 253.968 miles an hour.

H. A. Rust, democratic candidate for the nomination of county commissioner in the coming primary election.

As a candidate for the office of county commissioner of Lane county I feel it my duty to state to the voters of the county my attitude regarding the conduct of the office.

I believe that a county commissioner should be a practical man, one who has some knowledge of building roads and maintaining very valuable experience in building and repairing bridges.

As a contractor in road construction for 24 years, and for a majority of the county commissioners' court maintaining direct supervision over all its duties.

During times like the present we must get along without many things that we have been enjoying in the past; we must forego some things we should like until we know that we can afford them.

In order to reduce taxes we must cut expenses.

As difficult as it is at present to get money with which to pay our taxes we must be sure that we get value received for every dollar we spend.

I have been a resident taxpayer for 24 years, and I have had a majority of the county commissioners' court maintaining direct supervision over all its duties.

Mrs. Ralph Brown entertained Friday in honor of the eighty-seventh anniversary of her grandmother, Mrs. Deltha Emerson, of Latham, with whom she makes her home. Mrs. Emerson came to Oregon in 1853 and to Latham in 1878. Latham has ever since been her home.
