IT IS NO LONGER A LIGHTBILL

IT WAS IN 1890

BUT TODAY

LIGHT is a very small part of it

YOU USED TO CALL the monthly statement from the electric company your 'light bill'. It was a light bill then. It represented a few lights here and there about your home. But now . . . light is a small part of the total electric bill. Today electricity is used for cooking, refrigerating, washing, ironing, sweeping, cleaning and entertainment. Yes, indeed . . . the light bill disappeared with the pompadour and the bustle of 1890!
