Clark, who is seeking the Republican nomination for United States senator, is the man who was chosen as legal counsel for the Dairy Co-operative Association of the State of Oregon and his efforts in their behalf have resulted in stabilization of the price of milk paid to the dairymen by the distributors. This result was accomplished at a time when a large majority of the milk producers of the state were on the verge of ruin. (Pd. adv.—Clark for U. S. Senator committee, 829 Oak Hill, Portland, Ore.)

WHO PAYS? Cottage Grove, Ore., May 2.—(To the Editor)—Knowing your fine fairness in any question of public policy, I wish herewith to ask a question that I believe is on the lips of many of your readers and countless thousands throughout the nation, with respect to the "Do you favor its repeal?" question. The question is the age old one, "Who pays the bills?" Twenty million dollars are mailed out to men and women if the United States taking two questions only with respect to a "Do you favor its repeal?" question. This is the second time in three years the Digest has taken such a vote. Even one so much of a layman as myself in the matter of expense, in connection with a vote of this nature knows the cost involved must be tremendous. The paper, the postage both ways, cost of labor, hundreds of thousands of dollars will be expended. Who will pay this bill? It is patent that it is much too large for the general taxpayer. Who is back of this great undertaking? The temperance forces should quickly analyze the question, "Is it to generate sentiment in favor of the eighteenth amendment, or to raise money for the support of the prohibitionists?" One cannot help but wonder whether the 292 rich men who paid three-fourths of the total income last year are not behind this Digest movement in a vain attempt to saddle onto those unable to pay the cost of the tax. They are rich, are abundantly competent to take care of a just tax is one that is borne by those who are qualified to pay it. Let us let the Digest, with the aid of the wet Literary Digest, these rich men shall not evade their responsibility. DUNCAN P. CAMERON.

WHAT PAYS? Latham, May 2.—(To the Editor)—One often is inclined to wonder what pays in times like these. It always pays a community to give its citizens an opportunity to study the situation before they give them out, fight them out, worry them out or even burn them out. In times like these the need is even greater. Through the services of better homes committees this opportunity was given to the citizens of Cottage Grove. That they all do is evidenced by the report of the relief council of Cottage Grove. Just here may I say that, although organized charity may do a great deal of good, it should remember that "he who gives himself with his aims feeds three, himself, his hungry neighbor and the man who is not helped in America should reach more people than any other group in the nation, due to the fact that the vast majority of members of some type than any other organization, so all people and all groups should see in an opportunity to help the widest service to mankind. Any national organization can be only what the local group makes it. What the local group makes it, the people of Cottage Grove to the newly appointed better homes committee of Cottage Grove? As we think of the possibilities of the next year. MRS. HUGH TRUNNELL. Latham Better Homes.

MOTHER. Mother is the unpaid servant and the uncrowned queen of our race! Her name was rightly called mother, for she is the mother of all living. Her heart is the fountain, from whence springs under the hand of the Almighty every tender, beautiful, noble and uplifting ideal to inspire mankind up the heights, toward the fuller and freer life. The touch of her gentle hand, the soothing cadence of her voice, and the seraphic halo of her smile live in memory to enrich, and strengthen, and to purify the impulses of life. Her wonderful love, unselfish and untiring devotion; her kind, courteous variety of ministries great and small, enfold forgivingly, forgetfully and indulgently. Her words of counsel, often thanklessly received; with the passing of the years are seen divine jewels of greater worth than rubies and diamonds. At this memorial season I will do obedience, and pledge a renewed allegiance to the queen; the best of women; I will be loyal to Mother. —Contributed.

W. W. Lattie, who had the night trick here, was bumped by S. Nibank, who was for a number of years agent at Drain. He had been bumped there. Lattie bumped a man at Roseburg, but was turned back by a still older man on the road. Seniority gives one employe the right to bump an employe with a shorter service record.

10 MILLION POPPIES ARE TO GO ON SALE Although official poppy day will be observed nation wide May 28, the poppy sale will start here Saturday, May 21, according to announcement of Mrs. D. A. Emerson, poppy chairman of the American Legion auxiliary. Sales will be conducted in both business and residence districts and the entire proceeds will go to the relief funds of the auxiliary. More than ten million paper replicas of the Flanders field poppy will be offered for sale and on the official day every person in the city will be asked to wear the poppy which has a two-fold message: First, it is a personal tribute to the memory of those gallant young men who gave their lives for America in the World War; second, it is a help to the burden of those who are still paying the cost of the war with suffering and hardship, the disabled veterans, their families and the families of the dead. Because of the increased need for relief some of our disabled and their families, the auxiliary is planning to make the sale this year bigger than ever before.

THE OLD RELIABLE For nearly 40 years this bank has been a part of the community life of Cottage Grove. During that time it may have been criticized by some for its conservatism, but it has always felt that its first duty was the protection of the funds of its depositors. Because it has been reasonably conservative in good times it has been always found in a position to easily weather times of distress in the community. At no time in its history has a dollar of depositors' money been in danger. The community is emerging from the most distressing period the community has known during the life of this bank, but today this bank's capital stock, its surplus, its undivided profits, its double liability of stockholders show that the directors and stockholders would have to lose \$140,000.00 before a depositor could lose. Your deposit makes it possible for this bank to better fill the place it is expected to fill in the community. It will work for your community while you're not using it, and be here when you want it.

Democrats Complete Ticket. With the announcement Tuesday that Judd Stauffer, Spanish-American war veteran, would seek to have his name written in on the democratic ballot as candidate for county assessor, the Lane county democratic party has a candidate running for every county office except that of county constable. Democratic leaders announced that Stauffer had decided to run for county assessor against Ben F. Kenney, republican incumbent and candidate for renomination. Sunday the democrats announced that they would write in the names of Dr. Del Stuard and Harry Stewart on the democratic ballot for legislature, thus making a complete ticket of three men. Frank Mendenhall of Cottage Grove filed for representative. Oberlin, in Ohio, was the only college that admitted women in 1843. Vatican City is the smallest state. To Property Owners in A. F. & A. M.
