City Briefs

BRIEFS
Mr. and Mrs. J. A. Powell and Mr. and Mrs. N. H. Powell of Prineville returned home Monday after spending a week with the Vinal Handall family.

Elbert Smith, student at University of Oregon, returned to school Monday after spending the holidays at the home of his parents, Mr. and Mrs. Elbert Smith.

Miss Mary Clerin of Portland arrived Monday to work for the Cottage Grove Sentinel while Elbert Bede is attending legislature.

A Wantad for 10c

If you haven't tried Sentinel classified ads, here is the chance to do so at little cost. If you have, here is a chance to do so again.

For next week's issue of The Sentinel, a classified ad of any length up to 35 words will be accepted at 30c for three insertions, which is equivalent to 10c for each insertion. Any additional insertions at 10c the insertion. For additional words over 35, one cent for three insertions.

This special is for the coming week only, and for copy submitted before 6 p. m. Wednesday.

W. L. Leonard of McMinnville spent the week end here visiting friends.

Mrs. L. M. Harding of Albany arrived Monday to visit at the home of a sister, Mrs. Fred Wright.

Band rehearsal every Monday night.

Evelyn Smith, student at Monmouth normal, returned to school Monday after spending the holidays here with her parents, Mr. and Mrs. Elbert Smith.

Alton Woodward, University of Oregon student, returned to school Tuesday after spending the holidays at the Elbert Bede home.

DO YOU KNOW

That candy alone costs the average American family \$1.70 for every dollar spent for electricity. Even ice cream costs \$1.60 for each electrical dollar. There are a great many people who do not use tobacco and yet the average is more than three times electricity, or \$3.33 for tobacco while \$1.00 is being spent for electricity. Do you know that your radio can be operated 2 to 5 hours for one cent? The average electric iron 25 to 50 minutes? A fan 4 to 8 hours? Your electric washer 1 to 2 and one-half hours? Vacuum cleaner 3 to 6 hours? Refrigerator 3 to 6 hours?

In comparison with other necessities, electricity is cheap... so cheap that no family can afford to do without its clean efficiency.

MOUNTAIN STATES POWER COMPANY

Mr. and Mrs. S. R. Veatch of Newport, former residents of this city, are moving to Cottage Grove this week.

H. W. Sprouls was taken to a Eugene hospital Monday for medical treatment.

Word has been received here that W. G. Perry of Newberg, a former resident, died Tuesday morning. Funeral services were held Wednesday in Halsey. He survived by a son, Orrie Perry of this city, who left Tuesday to attend the funeral.

Mrs. Inez Meeks and Mrs. Mary Stoneburg spent the week end in Portland with the Hugh Milligan family.

Skirts, sweaters and dresses! A new shipment is expected at the Smart Shop today. Mrs. Alice Breedlove, prop. 36c

E. J. Lea and daughters Dorothy and Margaret and son Sherman of Berkeley, Cal., returned home Monday, after spending the holidays here at the home of Mr. Lea's mother, Mrs. George Lea.

Eugene Dove, teacher in the Cottage Grove schools, returned here Monday, after spending the holidays at his home in Rainier.

Mrs. Lenora Pyburn, teacher in the Eugene schools, returned to Eugene Monday after spending the holidays at the home of her parents, Mr. and Mrs. W. L. Hubbell.

Melvin Brees and Jean Allison, students at Oregon State college, returned to school the first of the week after spending the holidays here with their parents.

Thomas Sprinkle returned here Monday after spending the holidays in Portland with his parents.

Dan Kelly returned here Monday after spending the holidays in Stayton with relatives.

Mr. and Mrs. Victor Kem of Toledo returned home Monday after spending the holidays here with Mr. and Mrs. Veatch and Mr. and Mrs. O. M. Kem.

Mrs. W. B. Cooper of Portland and daughter, Mrs. Dorothy Clark of Eugene, spent one night last week with Mrs. Estella Salton.

Mr. Clarence O. Willis Dies. Mrs. Clarence O. Willis, a resident of this district since 1924, died at 11:55 p. m. Sunday at her home on 311k creek, about four miles west of Cottage Grove. She was aged 77 years, 23 days.

Funeral services will be held at 2:30 this afternoon at the Mills chapel and Rev. T. G. Shazier will officiate. Interment will be in A. F. & A. M. I. O. O. F. cemetery.

Katherine Matilda Russell was born December 8, 1865, in Sidney Plains, N. Y. She lived for a time in Marshfield and came to Cottage Grove in 1924. She was married here in 1925 to Clarence O. Willis.

Besides the husband surviving relatives include six children by a former marriage, Mrs. Nora Hall, Portland; Mrs. Elsie Kennedy, Condon; Mrs. Florence Willis, Nehalem; Mrs. Gail Elliott, Marshfield; Mrs. Daisy Mulcaire and John Kennedy, Cottage Grove, and three brothers and three sisters.

Masons Install Officers.
Cottage Grove Lodge No. 51, A. F. & A. M., installed new appointive officers at the regular meeting Wednesday night in Masonic hall, S. L. Godard was installing officer and the following were installed: J. W. Earl Stewart; S. D. William Thum; J. D. E. R. Lemley; S. S. J. P. Graham; J. S. Ross Glass; T. Olaf Olsen; marshal, Nelson Durham.

Brother of Charles Adams Dies.
Frank Adams, brother of Charles Adams of Eugene, former Cottage Grove resident, died from pneumonia Saturday in a San Francisco hospital. Funeral services were held Wednesday. Frank Adams came to San Francisco from New Jersey. He was connected with the Southern Pacific and held important positions with that company for many years.

Mr. and Mrs. Charles Adams were called to San Francisco December 25 by the brother's illness.

Removing Corks
If you have a bottle that must be opened and the bottle opener has disappeared, insert a knife on either side of the cork, grasp the two knives firmly as though they were one, and pull forward, turning them as you do. The pressure will remove the cork.

Made Florence Famous
The architect Brunelleschi had no small part to play in making Florence a leader in Renaissance art. He journeyed to Rome in 1403 and brought back and interpreted his inspiration in the classic revival so well that the Florentines speedily took a prominent place in the stimulation of new beauties, new culture. Her furniture ranked with the best of the period.

Only Slightly Vocal
Angle worms do make a slight sound. It can be closely imitated by moistening the lips and then opening and closing them without moving the jaw. Whether or not they hear has not been decided, but they do not see in the true sense of the word, as they have no eyes.

Historic "Mounds"
Mounds in the United States are to be found from the Great Lakes to the Gulf of Mexico and from the Rockies to the Atlantic ocean. They are especially frequent in the valley of the Mississippi along its tributaries in Arkansas and Kansas, and in the basin of the Ohio. Similar structures extend southward through Mexico, Central and South America.

"Of Two Evils"
The mock doctor in Mollere's farce, having cured a man's daughter supposed to be dumb, she expresses her tongue so fluently that her father offers him a second fee to take from her the power of speech again. "I cannot do that; but if you please I could undertake to make you deaf!"

Another Defense Mechanism
A soft answer turneth away wrath and a long answer prevents people from asking you questions in the future.—Terre Haute Tribune.

China Feels Forest Loss
China is facing a serious forestry problem due to the reckless use of the forests for firewood. There have been American foresters in China for several years working on the problem. The central part of the country is practically denuded of trees.

Historic Valley
The Shenandoah valley is more than 100 miles long and varies in width from 20 to 30 miles; included within its area are Berkeley and Jefferson counties, West Virginia, and Frederick, Clarke, Warren, Shenandoah, Page, Rockingham and Augusta counties, Virginia.

Animal Species
There are more than 500,000 species of animals, the number in each class being: 7,000 mammals, 20,000 birds, 5,000 reptiles, 2,000 amphibians, 13,000 fish, 60,000 mollusks, 300,000 insects, besides a host of lower vertebrates.

Archeological Find
An enclosure in which a sacred crocodile lived in ancient Egypt has been found by Italian scientists at the sanctuary in Tebtunis of Seknebun, the crocodile god. It is the first discovery of its kind.

Superstition
The greatest burden in the world is superstition.—Milton.

Miss Myrtle Hubbell went to Eugene Wednesday to visit several days with a sister, Mrs. Lenora Pyburn.

Mrs. Phillip Hohl is reported to be critically ill. A daughter, Mrs. Elizabeth Darland, is helping to care for her.

Mr. and Mrs. D. H. Mercer and daughter Carol Louise expected to leave soon for Independence to make their home.

Dr. and Mrs. Stark and a nephew of Albany visited over the New Year's vacation at the home of a brother of Mrs. Stark, Mrs. Leom.

Mr. and Mrs. S. T. Rose and baby spent New Year's day in Roseburg at the home of Mr. Rose's parents.

Sporting Goods! Remington, Winchester and U. S. ammunition. Fishing tackle, 1933 hunting and fishing licenses are here, Graber-Gettys, j6c

Fred Bennett, who had worked in Nelson Motor company for several years, left Monday for Corvallis, where he has charge of the College Hill garage.

ANOTHER RAILROAD IS TAKING DOUGLAS FIR

Entering the Douglas fir market for the first time in its history, the Chesapeake & Ohio railroad has placed an initial order for 500,000 feet of lumber with a Columbia river mill. The order consists chiefly of stringers and timbers for bridge and other heavy construction.

Heretofore the Chesapeake & Ohio has used southern pine exclusively for heavy construction purposes. It is understood that the line plans to place additional orders for Douglas fir during the coming year.

Another substantial order placed recently with a Pacific northwest mill calls for the delivery of 2,500,000 feet of Douglas fir lumber during the coming year at the Hetch Hetchy project, the new water supply plant for San Francisco, J. H. Chambers & Son of this city received the order.

The lumber will be shipped directly from the mills to the project over the Southern Pacific and will total 100 carloads.

PRICE SLUMP SPOILS DAIRY COST REDUCTION

Much as the cost of producing dairy products on Oregon farms has been reduced, it has not kept pace with the nosedive made by the selling prices of these products. The extent of this spread is accurately shown in the report of the third progress report of the three-year study of the cost of producing dairy products in Oregon just completed by the dairy and farm management departments at the Oregon experiment station.

This latest report is for the year ending April 1, 1932, and includes compiled data gathered from 464 farms having 8,224 cows producing about 2½ million pounds of butterfat in the year.

This report shows that the cost of production has been progressively reduced from 50 cents a pound of butterfat to 40 cents and then to 36 cents for the three years studied. Meanwhile the average selling price for the same three years dropped from 51 cents to 41 cents and then to 39 cents. Thus for this third year the average selling price, reduced to a butterfat basis regardless of how the milk was marketed, was six cents below the average cost of production, while for the other two years a slight margin of profit was shown.

Cost of production as expressed here includes, of course, wages at prevailing figures for the dairymen and his family and five per cent interest on capital investment. The cash cost, which will be shown in a later complete report, is considerably below the 36-cent figure.

Once again the survey, obtained through actual records kept on each farm, reveals that central Oregon "irrigation dairymen" are producing butterfat at the lowest cost in the state, the figures showing 33 cents for the irrigated regions, 35 cents for the coast sections and 30 cents for the Willamette valley.

A wide range in individual farm costs is shown in the figures for the Willamette valley where the 25 lowest-cost farms produced at an average figure of 24 cents while the 35 high-cost farms showed a 60 cent average.
