### Garden Club

"Would you like to know about my garden, which takes so much of my time and care?"

Through the center runs a path with flowers on either side—a large bed of Patience and a beautiful bed of Hope, a fine climbing Courgette and little vine called Cherfulness that runs in and out all over my garden. Around the garden is a fence made of determination with posts of perseverance. This is to keep out the grumblebees. My garden grows all about outside and tries to get in. The path in my garden is made of grit, and leads down to a fountain which sometimes plays tears with which I water the garden. Outside the garden a tree like a weeping willow grows and sometimes casts a shadow over my flowers, and once in a while at twilight a blackbird comes and sings in the branches. It is called the complaining bird—it does not come often. In one corner of my garden is a hot-bed where I raise amilies because the Lumbermen's association held Friday night in Eugene. Later—The grumblebee broke my fence. I have cut it down, but the root is still there! I have mended the break in the fence with as much pluck as I could find, and have been gathering my flowers and trying them together with good resolutions.

### 30-HOUR WEEK MIGHT HELP WESTERN LUMBER

#### Small Mills Fear They Might Be Put at Some Dis-advantage.

The 30-hour week in industry proposed by the national administration was the principal subject of discussion at the meeting of the Willamette branch of the West Lumbermen's association held Friday night in Eugene.

It was agreed that the short week would result in employment of a greater number of persons, but smaller operators, who haven't a setup for the short week, feared that it would work to the advantage of the large operators who are in a position to work several shifts daily.

It was agreed that a 36-hour week would be much more acceptable.

The opinion was expressed that the west coast might benefit from the short week because it would put coast mills on a parity with southern mills which always have worked longer days than coast mills, thereby putting their cost of production under that of coast mills.

**Lynx Hollow Road Vacated.**

**Prune Orchards Are Attacked.**  
Thrips, an insect pest, have been discovered in prune blossoms in several parts of the county and the orchards are being sprayed by C. E. Stewart, county horticultural inspector, to spray their trees.

The thrips pry their way into the petals before the blossoms come out and as a result there is a scaly spot on the prunes when they develop. This puts them in the cull class and there is no market for them.

The spray recommended by Mr. Stewart is five pounds of whale oil soap and one pound of nicotine sulphate to 100 gallons of water.

Despite the fact that the sale of 3.2 per cent beer has been legal for a week, Cottage Grove has been far from a wet city. Only two dealers qualified and their supply was exhausted within two days. So far as reported there was no inebriation from the limited supply and nothing to indicate that any major change had been made in the liquor laws. When another supply will be available is not yet known.

The two dealers that qualified, paid their licenses and had beer on tap were the Pastime cigar store and Eagle cigar store. Two other applications were granted by the city council, to Mrs. Bessie Bralwell and the Gray Goose. The latter has filed a qualifying bond of \$500.

### OUTSTANDING FILMS ARE COMING TO EUGENE

Eugene may look forward in the near future to being resplendent so far as its theatricals are concerned. Manager Ray W. Jones of the Fox-McDonald, who has just returned from an extensive booking trip to Portland and Seattle, announces many noteworthy attractions coming to the "Mac" in the near future. Beginning with Irene Dunne in "The Secret of Madame Blanche" the McDonald parade of hits are outstanding. "The Secret of Madame Blanche" is a dramatic opus in which this celebrated star of "Back Street" reaches a new height in dramatic endeavor.

What promises to be the season's most brilliant comedy brings Wheeler and Robert Woolsey in "So This Is Africa," started a three-day engagement yesterday. This comedy feature will be followed by the historical epic, "The Cavalcade" Manager Jones says Eugene will enjoy the same production that has been run elsewhere. Post show prices. Diane Windward and Clive Brooks head the cast of 6500 persons. Next in line comes the thrilling story of jungle life, "King of the Jungle," in which Buster Crabbe is seen as the hero. Beginning Sunday, April 23, Mae West, the darling of Broadway, will head the McDonald screen entertainment in her latest starring opus of night life "She Done Him Wrong."

The classical treat of the season brings promise of "Rasputin," with John, Ethel and Lionel Barrymore in the star roles. The opus will be sponsored by the Associated Women Students of the University of Oregon for the opening day, Wednesday, April 26, through which they hope to replenish their student loan fund coffers. The attractions to follow include, in order named, "Luxury Liner," with George Brent, Zita Johann and Frank Morgan; "No More Orchids," bringing Carole Lombard, Bing Kong, with Fay Wray and Bruce Talbot, is said to be the thriller of the age; "Private Jones," with Lee Tracy, "Our Letters," with Constance Bennett, and "The Wanderers," with George Brent and George Brent's musical hit "42nd Street," are others coming.
