THE WOMAN PAYS

THIS IS TOO MUCH TO ASK OF ANY WOMAN FOR A WASHING

An electric washer will do the entire family washing for about 1 cent's worth of electricity and save the wear and tear of a washboard on the clothes. (To say nothing of the wear and tear on nerves, health and appearance.) Electric service is cheap by far the cheapest service you can buy. It will perform nearly all of your household tasks perfectly, in a fraction of the time required to do them by hand.

Complete "ALL ELECTRIC" service for an entire month (which includes everything from sunshine for the baby to cooking and refrigeration for the entire family) for less than the weekly wage of a good servant. Electricity is so clean, quiet and convenient that it is hard to realize the extent of the service we receive for the small amount we pay.

COME IN WITH YOUR EGGS—

In stage coach days an egg rarely traveled far. Markets for farm produce were limited by the distance a horse could trot in a few hours. Now there's no limit. Eggs sold by farm patrons of Swift & Company's 100 and more produce stations have a market virtually as wide as the United States. Swift's Brookfield eggs and butter can—and do—go wherever consumer demand is good.

GO OUT WITH YOUR MONEY—

Eggs purchased from farmers by Swift & Company are paid for in cash; city money flows to the country. Buying price quotations at the produce plants are close to what eggs bring in consuming centers over the country, less the necessary marketing costs on the way. Volume and efficiency make these costs low. Swift & Company profits, over a period of years, have averaged less than half a cent a pound of full products and per dozen of eggs.
