No Commission to Pay

K. 2963-123—Weekly newspaper in southern California. 300 paid circulation. Income last year over \$14,000. Owner will sell for \$14,500. This is a splendid chance for either a young newspaper man to build up for the future or for any newspaper man that wants a good income on a small investment. This paper has been established 39 years. It is in a town of 4000 and adjacent territory covers nearly 6000 people. Low rental. Farming and dairy community. Oil fields nearby from which great amount of business is had. Over 1,000 men working in oil fields right now. As a business proposition it is hard to beat. Write us for full detailed information.

K. 2975-128—You will find this highway tavern hard to beat. One of California's finest eating places. Here is something unique in a highway tavern in southern California close to Pasadena and Los Angeles, California. Just far enough out to attract those who desire to obtain an evening dinner away from home where the surroundings are ideal and the environment and cooking without compare. It appeals to the tourist and the travelers and there are thousands of them pass the place in cars every hour of the day as it is located on the main traveled highway U. S. No. 60 from the east coming into Los Angeles.

It is especially adapted for the serving of beer if desired out of doors in under the ample shade of the big live oak tree. This out of door feature is one of the attractions that has helped build up the splendid trade that this place has always enjoyed up until old man depression cut down its volume. The place is paying right now, although the volume has been considerably cut down but with business conditions beginning to pick up again it won't be long until the profits will be as great as ever.

The seating capacity is 100 people inside dining rooms, and many can be served in the patio under the shade trees which is paved. They cater to not only dinner parties but to luncheon, bridge parties and service club dinners and banquets. It is very popular. If you care to serve beer you can be busy all day serving sandwiches, etc. This business can be had but they have never tried it. The owner is selling on account of interests in Texas. He has citrus groves that demand his personal attention. He can't operate both so has decided to sell the above business. The place is easily worth \$20,000 in ordinary times, but for quick sale he will take \$11,000 and pay off \$1,000 still due on the place or the buyer can pay \$16,500 and assume same. Investigate this place as soon as possible. Write us for full information.

K. 3098-61—Here is a farmer's delight and a business man's opportunity. Nine acres of land on which is built a store building with living quarters in connection. Gas station in front of store with large storage tanks. The store building is 10x40 feet and two stories high. To the south side of store is a nice five-room cottage and garage. There is also a barn and garage combined in one chicken house and fenced in chicken yard. Three excellent wells on place with pure water. Some grapes and small fruit on place. All buildings are wired and have city electric lights. Large ball park on land. Fine school adjoins this tract only a few hundred feet away. Nice clean but small grocery stock. Wonderful place for dancing pavilion, \$7,500 buys complete layout. This proposition is located on one of the main highways on the west coast of Michigan in the great fruit belt. Age of owner forces sale at this low price. Let us tell you more about this wonderful proposition.

K. 3099-61—Resort on one of the best lakes in the 10,000 lakes district. 4,000 foot lake frontage. Established 12 years. 7 cottages and eight room sleeping lodge accommodating 45 people. 7-room main lodge all fronting the lake. 17 boats, 2 ice houses, four-car garage and work shop. Unsurpassed fishing for pike and muskies. Deer and duck hunting very good. Outside interests only reason for selling. Four miles from town. Details to rated buyers.

K. 3103-91—General merchandise store. Fully equipped. Building 36x40 ft. on two acres of land. Hammer and grain mill in building 30x50 ft. Two room house and three acres of ground. One new International truck, one and one-half ton. Filling station. Located on good highway in the Ozarks. Doing a good business now. Can prove profit by actual book record. All goes for \$9,000. Owners have personal reasons for selling.

K. 3104-122—If you want a real business with an assured future here it is. Lamp shades and lamp standards exclusive shop. Only one of its kind in Pasadena, California. Downtown shopping district. Can be bought for \$2500. This is the only shop of its kind in the city. Carries a selected up to date line of bridge lamps, floor lamps for office and home. Table lamps and the finest selection of shades for same that can be bought separate. This store is less than a year old and has had a very nice business to date, and the future looks very promising. It is suitable for lady or man owner that wants a good paying business. No previous experience necessary. Best of reasons for selling not connected with the business. Write for details. It is a nice clean business, one you would be proud to own and the price is right.

K. 2989-120—Laundry plant located in city of approximately 20,000 people in Los Angeles, county, Cal. A plant well worth \$35,000. Will sell for \$27,500. This plant is a little over four years old. All machinery and equipment up to date. Operated by an experienced laundryman who has owned several plants in and near Los Angeles. He brought his experience to this plant and built up a wonderful business. Last year the gross volume was over \$30,000. Has done as high as \$50,000 when times were better. The plant will do this again as soon as people find work to do again. Only reason for selling is that the owner has a chance to buy a larger plant in another city and will sell present plant at above bargain price in order to do so.

Nothing wrong with the plant or the business. It is a splendid, worthwhile investment for anyone. Write us for full details and you will be convinced it is an opportunity of a lifetime. Write or wire us.

Herbert W. Lombard, 1921-a18c
Attorney for Administratrix.

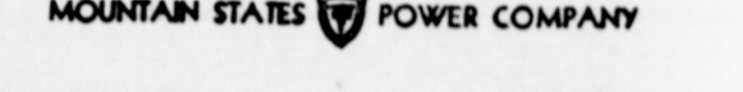

Food at Less Cost

FAMILIES which do not have adequate refrigeration are compelled to pay too much for food.

An electric refrigerator makes possible two effective ways of cutting food costs. It saves by keeping food fresh that would otherwise spoil. It saves by permitting you to buy food in the larger, more economical quantities and to take advantage of special sales.

The operating cost of an electric refrigerator is but a few cents a day—the cost of owning one was never lower. Just a small down payment, with plenty of time to pay off the balance, will put any model you desire in your home. See your dealer today.
