Tuberculosis still kills more people between the ages of 15 and 45 than any other disease. Buy Christmas seals, they fight tuberculosis.

Drunkenness is on increase. Drunkenness in Cottage Grove has been increasing during recent weeks, due probably to the repeal of the prohibition amendment. Two fines of \$25 were paid in police court this week. One was paid by a woman, charged with both drunkenness and disorderly conduct. The other was paid by a man, who claimed that he had taken several drinks of the new 3 per cent beer and that it "got up on him unawares." On account of children in the first case and a wife in the second case, names are withheld, but the curious may learn them by requesting to see the police court records.

Christmas seals are the ammunition in the war against tuberculosis. The enemy is on the run, but is not vanquished. Tuberculosis is still the leading cause of death in the first decade of maturity.

Need Only Date Palm. The importance of the date palm to the people of the lands where it is found is better understood when we learn that at one time most of the inhabitants of Fezzan, in North Africa, were entirely dependent on this palm for food, clothing and shelter for more than nine months of the year.
