Let
the car speak
for itself

HUNDREDS of thousands of people now own
and drive Ford V-8 cars. Some neighbor
or friend of yours has one. If we told you what we
think of the car, you might say we are prejudiced,
so we let the car and its owner tell you.

Economy of operation is one of the first points
they will emphasize—the owner will boast of it
and the car will prove it.

The 1934 car is even better than the 1933—
and that was our best car up to its time. The new
car is more beautiful—faster—more powerful
—gives more miles to the gallon—better oil
economy—is easier riding—cheaper to own and
operate than any car we ever built.

You owe it to yourself and your pocketbook to
ask our Ford Dealer to let you see this car, and
let you drive it for yourself. At the wheel of the
car you will be sure to reach a right decision. The
Ford V-8 will tell you its own story.

FROZEN IN ICE-BOX 3 DAYS
TEXACO flows!
IT'S SAFE IN YOUR CAR UNDER
ALL MOTORING CONDITIONS
In your engine there are approximately 20
narrow oil channels. Through these tiny
openings oil must flow. Many oils hesitate
until the friction they should prevent warms
them up. As a result, more wear occurs in
starting, than during miles of driving!
Texaco Crack-proof Motor Oil flows at the
first turn of the starter. Yet, at top engine
temperatures—Texaco is crack-proof! Hot
or cold—your engine is always protected.
Today—say "Yes" when the Texaco Man
suggests you drain and refill with Texaco
Crack-proof Motor Oil. Save car and money
this winter with Texaco!
Do This Yourself
If you have any doubt about the oil you're using — test it!
The simple "hour glass" test above can be made in any
home refrigerator. Texaco flows at temperatures cold
enough to freeze water solidly. Poor oils harden with cold.
