The Tallest Animal

The giraffe is the tallest animal in the world. It stands nearly 20 feet in height. Despite the fact that its neck is amazingly long, it has no more bones than the necks of all other animals; all animals have seven neck bones, with the exception of the sloth, which has one more.

Hi Ho's Voice

"I have had but little to say," said Hi Ho, the sage of Chinatown. "I resume speech in order to protect my ears against the voices of those who have even less to say. Every man's voice is pleasing to its owner."

Earth 330,000,000 Years Old

The earth is 330,000,000 years old and the universe between 500,000,000 and 3,000,000,000 years old. These figures are reached by calculations on the radio-activity of lead, thorium and uranium.

• This very fine range regularly sells for a great deal more money than we are asking this month. The quality of the range is the same in every respect as is the case when sold at its regular list price of more than \$150.00. The price includes the range as shown with latest type sliding oven, warming compartment, four fast surface burners, automatic oven control, condiment jars, latest type toggle switches, special light standard, electric clock, and built in cooking chart. The range is second to none in finish, beauty of design, and appearance. We hope our supply is large enough to last through the month but this is by no means assured.
