Lumber Protests Tariff Reduction

Unions Join With Operators in Opposing Cut in Favor Eastern Industrial Sections.

THINGS ARE BEING MADE easier every year for school children. Future generations will not have to learn the alphabet because the New Deal administration had used all the capital letters.

AND THE CHANCES ARE we shall learn that the product was alphabet soup.

THINGS ARE SO SERIOUS that parents are having a difficult time finding letters enough to form names for new babies.

SENATOR FREDERICK STEIWER has a new granddaughter—we don't know why babies are always referred to as new—and he wanted to name her Angelica, but found that there were no A's left.

WHICH LEADS US to inquire what has happened to lachrymal Walter Pierce's birth control legislation?

BABIES HAVE BEEN BORN within the past year in the families of three of the five members of congress from Oregon, Senator McNary, Congressman Mott and Senator Steiwer.

IT SHOULD BE NOTED that the three are all republicans and they probably were merely demonstrating that democratic legislation just doesn't work.

ANYWAY the New Deal administration has produced a lot worse things than babies.

THE NEW DEAL administration has had a lot to say about the forgotten man. He won't be the fellow who has to pay for all the money we are spending.

THE MAILED FIST is bad enough but it doesn't compare to the female.

WE DON'T SANCTION war, which may be the reason we impose sanctions.

IT MUST SEEM TOUGH to Mussolini to pay \$3.20 on every soldier he takes through the Suez canal when the money goes to fatten the coffers of nations that have imposed sanctions upon him.

ELECTION FRAUDS are charged in the Filipino election. We didn't realize that the Filipinos had become so completely civilized.

IF THE ITALIANS want to get an idea of how disastrous a war may be we might turn the Roosevelt kids loose on the streets of Rome in high-powered motor cars.

MODERN FATHERS are pleased that the modern child doesn't have the home work for father to do that the child had when father was a kid. Besides a child couldn't be chasing dad all over the country with an arithmetic problem.

MUSSOLINI SAYS he fears Ethiopian aggression. He is something like the fellow who, when asked where he was going, replied, "I'm going to town to get drunk, and, oh, how I hate it."

SOME DAY someone who has never so much as taken part in a city election, who wouldn't recognize a problem in social or political economy is he saw it and has never been a success at anything in his life may suggest something that will get us out of the fix we are in. Anyway the rest of us can't brag very much about what we have done to save the situation.

THE SAN FRANCISCO CHRONICLE wishes to know what would be a good nickname for a child who was christened Nira during the hey-day of the blue eagle. We should say that "Phoony" would do very well.

PRESIDENT ROOSEVELT comes back from sea and says that things will be better than ever before. Now we are the ones at sea.

THE EUGENE REGISTER-GUARD, strong supporter of college football, is to be complimented for its continued jabs at idiotic jobs used to hold football players by getting them on a payroll. Here's its best one:

U. S. colleges should sponsor horse races instead of football, says Nebraska dean. Wouldn't a horse look silly winding the university clock?

UP the HILL

by Lawrence Hawthorne

Life is pretty much a struggle up the hill,
And at times the going seems extremely slow.
Difficulties block the path ahead until
We don't know just what to do or where to go.
Yes, the way is often hard, but this is true:
We cannot afford to falter or to stop!
And men soon forget the hardships when they view
All the glories that await them at the top.

Life is pretty much a struggle up the hill,
But we seldom are compelled to climb alone;
There are cheerful hearts and friendly hands that will
Help us meet our problems as they meet their own.
So men learn cooperation! So they find
That their greatest satisfaction comes when they
Render service that is generous and kind—
When they help each other on the upward way!

Champion St. Mary's Takes C. G. Lions

Locals Take Lead in First Quarter but Get No Further Chance at Goal Line.

(By Alberta Dickinson, Journalism Student.)

The Cottage Grove Lions lost the last game of the season to the undefeated St. Mary's team of Beaverton by a 12-7 score Friday afternoon on Kelly field.

Playing in the mud Cottage Grove took the lead in the middle of the first quarter when Mason took the ball on a reverse from his own 22-yard line and ran 78 yards for a touchdown. Decker made an extra point with a sneak play.

The Saints made it 7-6 in the second period when a 20-yard pass from Hughes to Merrill gave the Saints the ball on the Cottage Grove two-yard line. Webb took the ball over for the touchdown. The try for point failed.

Cottage Grove immediately started a drive for another touchdown and had the ball on the Saints' eight-yard line as the half ended.

The Saints made it 12-7 in the third quarter when they gained the ball on their own one-yard line and started a sustained drive of 99 yards for the touchdown. The try for point again failed.

Cottage Grove played brilliant offensive ball, losing only four yards from scrimmage with a net total of 231 yards and eight first downs to an even 200 yards with ten first downs for the invaders.

Mason carried the ball 20 times with a total of 177 yards for the Lions, while Pracaso was outstanding for St. Mary's, doing most of the ball packing on a lateral pass from Webb.

Boys Find Checks, Rewarded.

Cooper, Blackmore and Safley boys, who several days ago found several envelopes of negotiable checks that had been lost by a traveling salesman, received cash rewards from the salesman for return of the paper.

The boys turned the checks over to Night Officer Schaffer, who knew the person who had lost them and returned them to him. The salesman had received the checks from customers while on a sales trip.

Health Seal Sale Starts Next Week

Mails Are to Be Substituted to Eliminate Former House-to-House Canvass.

The annual sale of Christmas health seals will be handled in Cottage Grove this year largely through a mail sale campaign. "This plan will relieve the community of the annoyance of house-to-house canvassing, the method of former years," according to Miss Mariette Hamant, local chairman, who has expressed the hope that appreciation of elimination of annoyance will result in a prompt and hearty response to the mail appeal.

School children conducted the sale last year, but this year will be asked to take no part other than to purchase seals. Such sales are expected to be 5 cents per capita.

The Lane County Public Health association is sponsor for the seal sale. The Cottage Grove health group is a member of this association and is local sponsor. Funds received from sales of the seals are used in the fight against tuberculosis, for school clinics, for community clinics and for control of communicable diseases. Expenses of the county health nurse, who visits Cottage Grove schools once a week, are partially paid from the seal sale fund. It is hoped that sales will be sufficient this year to make it possible to have a full-time county physician in place of a part time physician as at present.

The seal sale will start the day following Thanksgiving.

Miss Mariette Hamant, Mrs. K. K. Mills and Mrs. C. J. Kem attended a luncheon meeting of county workers held in Eugene Saturday at which plans for the sale were made.

Error in Townsend Head.

An odd error was made last week in the main head over the story of the Townsend club rally. The two lines of the head were transposed to make them read:

Is Townsend Belief \$200 Month Certain
The head had been written to read:

Ill With Sleeping Sickness.

London, Nov. 20. — (Special.) — Carl Puls, who is in a hospital in Eugene, is reported to be seriously ill with sleeping sickness.

J. O. Wilson found seven golf balls in one day and each one had J. O.'s name on it. And any golfer would envy J. O. his forensic ability in telling about a long putt for a birdie on No. 4.
