## Holmes-Watson Garden Wedding.

Miss Roberta Holmes, daughter of Isaac R. Holmes of Eugene, became the bride of Floyd Watson, son of Mr. and Mrs. C. E. Watson of Myrtle Point, Saturday evening at a beautiful garden wedding at the home of Mr. and Mrs. Bartlett Johnston at Saginaw. Judge William Swafford of Eugene performed the ceremony beneath a rose covered arbor. Baskets of flowers in shades of pink, blue and white added to the picturesque background of shrubs and garden flowers. The bride wore a gown of white tulle and her veil of tulle was waist length draped from a silver wreath. She carried an arm bouquet of calla lilies. The maid of honor, Miss Lois Holmes, sister of the bride, wore a frock of blue organza and carried pink gladioli. The bridesmaids, Miss Ellen Watson, sister of the groom, and Miss Wilma Minion of Eugene, wore identical frocks of pink organza and carried blue gladioli. Little Lenora Johnston, as flower girl, wore white organza. Preceding the ceremony, Miss Ruth Westfall of Corvallis sang "At Dawning." The wedding music was played by Mrs. Harry Durlinger of Eugene. John Kirk of Coquille was best man. Ushers were Wallace Baldwin of Salem, LeRoy Starr of Coquille and Claude Kirkendall of Saginaw. An informal reception followed the ceremony. More than a hundred guests were present. Following the reception the couple left on a brief trip to California after which they will make their home at Gold Beach. For traveling, the bride wore a jacket suit of navy blue with white accessories. Her corsage was of roses and forget-me-nots. Mrs. Watson was graduated from the Cottage Grove high school in '33 and attended the Oregon State normal school the past year.

## Take Fire Precautions.

The fire department responded to a call Wednesday forenoon sent from the Mounts property at 317 Washington avenue. A hole was burned in the roof resulting from a fire. The contents of the house were somewhat damaged by water. A family by the name of Carpenter, recent arrivals from the middle-west, occupied the house.

The department was called to the W. J. White property on Gibbs avenue Saturday when a chicken house on the rear of the place caught fire. No great amount of damage was done.

The warm weather is coming on and these small fires should serve as a warning to property owners.

## Revive Superstition as to Magnetism of Body

The number of psychiatrists doing a thriving business may owe their good fortune to the carelessness of modern housewives, for less than 100 years ago the following thought was in vogue:

"The earth is a magnet with magnetic currents constantly playing around it. The human body is also a magnet, and when the body is placed in certain relations to the earth, these currents harmonize, when in any other position they conflict. When one position is to be maintained for some time a position should be chosen in which the magnetic currents of the earth and the body will not conflict. This position, as indicated by theory, and known by experiment, is to lie with the head toward the North pole.

"Persons who sleep with their heads in the opposite direction, or lying crosswise, are liable to fall into various disorders. When they go back to the right position, these disorders, if not too deeply impressed upon the constitution, soon vanish. Sensitive persons are always more refreshed by sleep when their heads point due north."

## The Deadly Black Widow Spider an Enemy of All

The female black widow, which is so much more deadly than the male that little attention is given the latter, is characterized chiefly by the glossy blackness of her shoe-button-like body which is about half an inch long; her long legs that sprawl over approximately two inches of space; and, of course, the distinguishing marking on the underside of her body. Though this is generally confined to the red hour-glass figure, it sometimes varies both in color and shape. If not red the marking is yellow.

Since she has decidedly cannibalistic tendencies this spider is generally seen alone, for she early devours her mate along with the other insects upon which she feeds and her young, which burst from the egg-sac in early summer 50 to 100 strong, soon scatter to avoid being eaten by their mother. Her natural habitat is out of doors on the under side of rocks; but her coarse, sticky web is also to be found in dark corners of attics, basements and barns.

## Reller and Martin Open Handle Plant

A new industry is now in operation at Culp Creek, where Reller & Martin have opened up a plant adjoining the Bohemia Lumber company, for the manufacture of mop, broom and brush handle squares. Slabs from the Bohemia Lumber company mill furnish the raw material.

Six men are now employed. The squares are trucked to St. Helens where a factory turns them into the finished product.

Reller & Martin have opened an office at 612 south Sixth, Cottage Grove.

## A Small Blaze

Fire, which broke out at an early hour this (Thursday) morning in the Crawford hotel, did little damage although occupants were badly frightened as the halls filled with smoke. The fire started in a room occupied by a painter, who is doing some decorating at the Arcade theatre, and it is presumed that the blaze originated in some oil soaked clothing which he had worn. Some of the contents of the room were damaged but the flames were checked before they could spread to other parts of the hotel. The fire company responded to an alarm but the fire was extinguished before their arrival.
