### Few Catholic Masons.

In Ireland a century or more ago many Roman Catholics, including priests, were Masons, and today in Latin American countries there are quite a number of Masons who are Roman Catholics. Although Freemasonry does not exclude any believer in the Deity, it is rare these days to find a Roman Catholic in the United States of America who is a member of the Masonic Fraternity. B. Elbert Bede, 33 degree, Cottage Grove, Ore., recalls that he was instructed in the lectures of the three Blue Lodge Degrees by a Brother who attended Catholic church every Sunday morning and either was or had been Master of the Lodge in which he received his degrees. Although this happened more than 30 years ago, he recalls that this Catholic Brother was a zealous member of the Fraternity and faithfully practiced its teachings.

Mr. Bede also had the unusual experience of assisting in conferring the Master Mason Degree upon his father, Mr. J. Adam Bede, now a resident of Duluth, Minn., and who served in the 58th, 59th and 60th Congresses from that state.—Scottish Rite News Bureau.

## UMPHREY & MACKIN

GOOD VALUES

One of the most delightful things about an electric stove is that you don't have to "stay with it" to watch the pot boil or regulate the oven. All you do is to prepare the foods, put them in the oven, and march off to bridge, store or club, knowing that the automatic timer and heat control will stay on the job for you. And an electric stove is so spotless, smokeless, sootless—and economical to operate.
