Howdy Folks: It looks as though the Republicans had found some candidates. Now all they need to do is find some Republicans for the candidates.

While discussing automobiles, the other day, a local man said he sure would like to see that Landon machine, they talk so much about in Kansas.

### Editor's Mail

Dear Mr. Editor:  
Can you tell me the name of the largest diamond?

Curious.

Dear Curious:  
Yes, it's the ace.

Now we would like to tell you about THE ACE OF RADIOS, the RCA VICTOR. For those who wish real tone quality the Victor fills the bill. Priced from \$34.95 to \$199.50.

Prosperity is something that business men create and politicians take the credit for, according to one of our customers.

According to other customers VICTOR RADIOS are about the best buy on the market. ASK OUR CUSTOMERS OF THREE, FOUR OR FIVE YEARS AGO, how their Victor's are performing.

We wonder:— When Cottage Grove will get a new Post Office and a mail service to outside points befitting our importance as a shipping point.

Signed,  
RADIO RAY

### Thieves Still Busy

Petty thieves were at work Wednesday night of last week at the Woodson Garage as evidence of missing articles indicated. The work was apparently done while employees were busy in other parts of the building as no possible means of entrance to the place when locked were discovered. It is thought the safe and cash register had been tampered with by the offenders but only a few small articles were reported missing.

## The SNAPSHOT GUILD

WHAT DO YOU KNOW?

Seems to be moonlight, but it's sunlight. A snapshot with a small lens opening, preferably when the sun is low, will get pictures like this.

Do you know that—

Slight overexposure is always preferable to underexposure?

A small stop opening must be used when both nearby and distant objects are to be sharply defined at the same time?

For good composition, the object of principal interest should never be placed in the center of a picture?

In striving for pictorial effect, it is best not to hurry in making the exposure unless moving objects demand immediate action, as a little time spent in selecting the viewpoint proves a good investment?

Highlights are the portions of a picture upon which the greatest amount of light is centered and reflected—the densest portion of the negative and the lightest portion of the print?

Enlarging from sections of your choice negatives is a source of great satisfaction, and that many exhibition prints are prepared in this way from negatives which, taken as a whole, lack just the right spacing or arrangement?

A diagonal rather than a full face-on view of a building is usually more pleasing, particularly if a portion of the building is in shadow?

If, when making portraits, a hand, arm or leg of the subject is extended much beyond the body toward the camera, it will appear abnormally large in the picture?

In using a portrait attachment for close-ups, a piece of string knotted at determined distances and kept in the box with the attachment, is more convenient than looking for a yardstick or tape measure to fix the distance between camera and subject?

Most so-called moonlight pictures are made in the daytime and that a snapshot exposure, with a comparatively small lens opening, when the sun is near the horizon will produce such a picture?

It is best to have film developed promptly after the last exposure is made?

More pleasure comes from keeping your prints mounted in an album than keeping them loosely anywhere, perhaps to be lost or damaged?

Regrets and annoyance come from not keeping your negatives in orderly fashion in a negative album so that, when you want new prints of any picture, you know where the negative is?

JOHN VAN GUILDER.

### Safeway Stores Launch Automobile Contest

A new 1937 Packard six automobile and \$1625 in cash are the prizes offered by Safeway Stores in their third annual coffee contest which started this week.

Briefly, the details of the contest are as follows: Everybody except employees of Safeway or affiliated companies are eligible to participate.

Contestants register and receive contest blanks at their Safeway store and are also supplied with contest slips which they may pass out to their friends and neighbors when they recommend the purchase of one of three brands of coffee.

When the coffee purchase is made at Safeway the customer is to deposit the slip which he has received from the contestant. This slip, which bears the contestant's name and address is for the pur-

pose of crediting the contestant with the sale of the coffee. Each pound of coffee sold counts five points for the contestant and at the end of the contest the 50 contestants having the 50 highest scores receive the prizes. The contest opens October 8 and closes October 31.

### You Should See It! This New Westinghouse Automatic Electric Range

There are two artistic lights that swing forward in any position, the lamps are a frosted, silver finish, trimmed in cardinal. An electric clock is in the center, between the two light fixtures, on an attractive little shelf. On the left of the back splash, is a little silver-finished shelf, just large enough for the modernistic, ebonite salt and pepper shakers.

The large, porcelain-lined, fast, Westinghouse automatic oven insures perfect baking and roasting results. The broiler pan comes as regular equipment.

The utility drawer to the right of the oven is an added convenience. The finish and modern lines of the entire range are beautiful . . . and, of course, there is nothing better manufactured than the Westinghouse electric range. It is priced especially low. See it today.
