Fan Symbol to Japanese

To the Japanese the fan is not the trivial plaything it means to us, writes Ellery Sedgwick in the Atlantic. To them it is in its essence a symbol of authority—not the domination of a drawing room, but a jurisdiction compelling civil obedience and social order. Originally, as the archeologists will tell you, the fan was a scepter, shaped more or less like a mighty paper-cutter. Certain it is that between power and the scepter which expresses it there is the closest relation, and in Japan some early genius saw the possibility of enclosing within the scepter the folds of a fan.

Crichton's Death by Sword

James Crichton was a gifted highly educated Scot. He established a reputation for swordsmanship and was engaged by the Duke of Mantua as preceptor for his disolute son, Vincenzo di Gonzaga. This youth, masked, with five companions, attacked Crichton. When Crichton pressed them too hard, Vincenzo tore off his mask, whereupon his tutor fell upon his knees, asked the prince's pardon, and offered him his sword. Vincenzo plunged it into the body of Crichton.

Muskellunge of Pike Family

The muskellunge belongs to the pike family and is usually found in the deeper water of the Great Lakes region, although a smaller species is found in the upper Mississippi valley. It has a long, slim body, golden-olive in color, thickly spotted with black above. Often 6 feet in length and 80 pounds in weight, it is one of the strongest fish for its size in the world and lives entirely on other fish.
