C. G. School Newsette

The girls' league council has decided to conduct the nomination of queen candidates for the May festival differently this year. The high school faculty will choose five girls from each class on the basis of scholarship as well as the activities they have participated in. In turn each class will elect a candidate from the five girls selected in their class. The queen contest will be open following the election Monday. Votes will be sold for one cent each by representatives from each class. They may be deposited in a ballot box either at Kem's for Drugs or at the high school.

The girls' league council is holding meetings each Wednesday noon in order to see that the May festival is progressing satisfactorily.

The home economic club met April 14. A party in the form of a scavenger hunt was planned. Geraldine Kem is chairman for the party. A social service committee was selected to make arrangements for outfitting two needy children. An arrangement was made for the president to appoint a committee to select officers to be elected at next meeting. At the next meeting Lucille Davis will give a report on the life of Ellen H. Richards, founder of home economics.

Winners of the local and county W.C.T.U. essay contest were awarded prizes by Mrs. Nicia Buck of the W.C.T.U. in a special assembly April 16. Only local prizes were awarded: Junior-senior, Heath Lowry, first prize of $1; Allan Ferrin, second prize of 50 cents; freshman-sophomore division, Marie Gilham, first and Jacie Morton, second. Winners of local prizes are also winners of county prizes which will be awarded later. Mrs. Buck gave a talk on liquor in which she illustrated the different effects of alcohol on vegetable and animal matter and on things we eat and use as compared to the effect of water on the same material.

You will have a chance to observe some of the habits, costumes and peculiarities of the gypsies at the senior play, "Once in a Lifetime," April 30, in the high school gym.

A wealth of romance centers about this picturesque wandering race. The gypsies are not a part of our civilization, but have their own customs, racial characteristics and language.

The history of the gypsies is quite indefinite, but they are generally supposed to be the descendants of an obscure Hindu tribe. They came to Europe near the beginning of the fourteenth century.

The Romani, as they call themselves, though rather undersized, are very attractive. They have regular features, olive skin, very black hair, dark and expressive eyes, and extremely white teeth. Both men and women, as you have probably noticed, lose their good looks early.

The gypsies pursue different wandering occupations, such as basket - making, blacksmithing, tinkering, etc. Horse trading was a favorite activity before the universality of the car. The women will always tell your fortune for you. In some countries they are noted musicians, their melodies often figuring in popular light operas, as in the Bohemian Girl.

The foods II class served a 6:30 dinner to the Cottage Grove school budget committee Monday night, April 19, in the high school dining room.

Joe Meyers, sophomore, withdrew from school last Wednesday.

Claribel Caldwell attended the Christian convention held in Corvallis last Friday.

Thelma McMahon, junior, has withdrawn from school temporarily because of the death of her father. She is now on her way to Wisconsin, where her father's body will be buried.

Dr. Bruce Baxter, president of Willamette university, will be the speaker for Commencement to be held June 2.

Glenn Welden, junior; Evalyn Kirchhofer, senior, and Willis Lathrop, senior, returned to school Monday after absences due to illness.

The wonders of science will be demonstrated by "Professor" Curtis French and his chemistry class in the assembly Friday afternoon.

WEST SIDE SCHOOL

The students of the seventh and eighth grades were entertained with a program following the business meeting Wednesday. The program was arranged by Mr. Dove, Marjory Earl, Loretta Henderson and Bill Workman and was as follows: Tap dance, Shirley Hendricks accompanied by Patricia Baldwin; song, Dorothy Bracher, Lois Hansen, Faye Nixon, Nancy Anlauf, Donna Hatch, Bill Helliwell, Junior Langston, Harold Bauder, Kenneth Whitlock, Brian Stroup, entitled, "When My Dream Boat Comes Home; song, "The Right Somebody to Love," Maxine Hunter, Betty Denham, Dorothy Safley; two plays, "School Days," "Yes, Caleb," dramatics class. The characters in "School Days" were, teacher, Velma Wilson; pupils, Brian Stroup, Shirley Hendricks, Lela Huff, Myrle Glasgow, Bertha Thomason. In the skit "Yes Caleb" Betty Brisette and Maxine Clary featured.

The following report was given in the eighth grade English class by Nancy Anlauf:

During the spring vacation it was my privilege to see the unusual exhibit of Jules Charbreou, who spent 37 years in world travel collecting minute objects. Among the 25,000 objects displayed, the most unique were a Steinway grand piano, two inches square, complete in every detail and a tiny pistol, one inch in length, which caused a terrific report when fired by its owner.

Many objects were too small to be seen with the naked eye; one thousand engraved gold spoons seemed but specks of gold on a white background until viewed through the microscope. Through this instrument could be seen fleas, dressed in fancy costumes of silk and lace like fine ladies, — a stanza of poetry enscribed on a grain of rice—the Lord's prayer engraved on a pin-head, and other things.

From China had been brought minute cricket cages, with stone bowls from which the crickets ate, also cricket ticklers of ivory, and glass tubes for giving the crickets ultra-violet ray treatments.

The exhibit included the smallest doll, ring, Bible, painting, sterling silver tea service, Dresden china, vases, stoves, musical instruments, sewing machines and other objects too numerous to mention.

WRACKED BY PAINS?

USE SI-NO!

The Proven Relief for Sinus

Why endure another agonizing moment of sinus torture? Why take chances of even more serious ailments? SI-NO, the perfected formula for sinus ventilation and drainage will relieve your condition. One month's treatment, complete with nasal applicator, full treatment directions, only $5. Send for SI-NO today, use for five days; then, if not absolutely satisfied, return to us and your money will be refunded. That's our unqualified MONEY-BACK GUARANTEE!

Nature Sketches

By R. S. Drenner

THE BROOK TROUT

The brook trout is one of the most beautiful, active and widely distributed of the American trouts. Scientifically he is known as Salvelinus pontinalis and belongs to the group known as charrs. It prefers clear, cold, rapid streams.

The general form of the brook trout's body varies considerably, sometimes being elongated, sometimes short, but the usual depth is about one-fourth or one-fifth of the length.

There is considerable variation in the color of this trout, depending on local conditions, sex and age. The head, locks and sides of the body dorsal and coudal fins are grayish or greenish color; mottled with dark green or black. Along the middle of the side are numerous round, light red spots surrounded by whitish or light brown circular areas. The lower fins are dusky, with a pale cream tint on anterior border bounded by a black streak, remainder of fin often red in breeding males.

The brook trout may be distinguished from other Charrs by the dark brown or black markings on the back and the general absence of spots on the back. The brook trout exhibits such a variation in color under varying conditions, age, etc., that it has been given many local names by fishermen under the impression it was a distinct species.

The flesh is generally white. Many possess rich yellow or red flesh. The color of the flesh is attributed to the fattening qualities of the food obtained. The oil or fat is naturally red, just as that of some other animal is white or yellow, and it is the amount permeating the fish that gives its intensity of color. A well fed, comparatively inactive adult trout will present more intensive shade of the flesh than a fish of the same age living in conditions where its livelihood depends upon its activity. In the latter instance the food has been assimilated and utilized in the development of energy, there is no accumulation of fat between the tissues from which oil permeats and color the flesh.

The largest brook trout taken in America weighed 12½ pounds, caught in Rangeley Lakes, Maine.

Lorane

Mrs. Edith Dunn

T. B. Mitchell and R. V. Foster spent several days the past week at the coast. They visited I. O. O. F. meetings at Florence and Mapleton. The county I.O.O.F. convention will be held at Lorane Monday, April 26.

Miss Opal Moore of Eugene visited a brother, W. T. Moore and wife last week.

The W. H. Mitchell family and Ann Lorane, and Iris Mitchell visited the Sardis Dudley family at Dorena Sunday.

The high school seniors gave a play, "Miss Adventure," at the high school Friday night. The cast included Elma Sutherland, Burton Kelly, Louis Dey, Margaret Howard, Cari King, Marjorie Skelton, Marion Nebergall, Doris Skelton, Thelma Herendeen and Ruby Davis. An orchestra composed of Harold Hoyt, Bill Byrum, Russell Hensling and Doris Hayes furnished music between acts. Over 28 dollars were taken in.

Traffic was routed by way of Lorane last week from Eugene to Cottage Grove on account of water over the Pacific highway. Some water was over the highway near Gillispie Corner, also south of Lorane and near the Addison Lumber mill. Cars were able to get through. The mills and logging crews did not stop work.

New officers were elected at Christian Endeavor Sunday night as follows: Elnora Dunn, president; Thelma Herendeen, secretary; Ruby Davis and Don Tivey, entertainment committee. Ruby Davis will be leader Sunday night.

Several from here attended the Rod and Gun club meeting in Cottage Grove Friday night. Among those going were C. B. Mitchell, Lawrence Brown, Kenneth Arthurs, W. T. Moore, Jim Mitchell and Ernest Trefry.

Crow high school boys baseball team played here Monday afternoon. The score was Lorane 4, Crow 3.

A meeting was held at the B. C. Addison store Monday night to organize a baseball team. Darrol Davis, captain of the high school team last year, was elected manager.

Straightaways Dangerous.

Most automobile accidents occur when the driver is going straight ahead on Oregon highways. The reason is that then is the only time the driver can really "step on the gas." Excessive speed precipitaes more crashes than any other cause, says the Oregon State Motor association.

Safety Books Available.

The Oregon State Motor association now has a "safety shelf" containing new safety literature. Pamphlets for school safety programs or other safety activities may be obtained from the Portland headquarters at 1200 S. W. Morrison street.

Reddy Remarks

Here I come with a bag of tricks—for a nickel I'll cook a meal for six.

TO RUN IT

1937 Ford V-8

• If you think that "all low-price cars cost about the same" — forget it! They don't.

Ford makes a car — a 60-horsepower economy Ford V-8 — that sells from 30 to 60 dollars under the prices asked for any other car of comparable size. The lowest Ford prices in years!

Check delivered prices in your town and see for yourself.

• Of course, first cost doesn't prove "low cost" — you must consider operating cost also.

The "60" has definitely established itself as the most economical car in Ford history. Ford cars have been famous for economy for 34 years, so that means something!

Owners who have driven it thousands of miles report that the Ford "60" averages between 22 and 27 miles on a gallon of gasoline.

You can prove those figures — on the open road — in a car provided by the nearest Ford dealer.

• When you've finished your personal check-up, ask yourself:

"Do I want to save money the day I buy my car and every mile I drive it?"

"Do I want a safe, roomy, comfortable car of advanced design — created from the finest materials to the highest precision standards?"

There's only one answer, of course — the 1937 Ford V-8.

Ford V-8 Prices Begin at $529 at Dearborn Factory. Transportation charges, State and Federal taxes extra

This price is for the 60-horsepower Coupe equipped with front and rear bumpers, spare tire, horn, windshield wiper, sun visor, glove compartment, and ash tray.

$25 A MONTH, after usual down-payment, buys any Ford V-8 Car, from any Ford dealer, anywhere in the U. S.— through Authorized Ford Finance Plans of Universal Credit Co.
