FOUR DROWN AT REEDSPORT

Joyce Pentico, about 5, daughter of Mr. and Mrs. C. M. Pentico of Cottage Grove and Mrs. Edna Huntman and two children, a son Elvin and daughter Virginia, former Cottage Grove residents, were reported drowned this afternoon near Reedport. Details are lacking, only a brief telephone message reaching the Glen Swanson home here. Coast Guardsmen are reported to have rescued Vera Pentico, a sister of the drowned girl, and others in the party.

Graduation Program At the Armory Friday

The main floor and the spacious balconies of the armory were filled to capacity Friday with people interested in the Cottage Grove high school, who had gathered for the high school commencement program: Processional by the high school orchestra under the direction of James Lewis; invocation, Rev. James A. Smith; chorus by the Girls' Glee club; "Cottage Grove History in the Making," which will be published serially, commencing in this issue; address, "Lighting," Rev. Pennington of Pacific university; chorus, Boys' Glee club; announcement of awards by F. L. Grannis, principal of the high school.

It was announced that a scholarship had been granted to Ilene Trunnell to Pacific university and to Ted Scott for Linfield college. Robert Fromm, representing the American Legion, presented Geo. Drury the Legion silver cup as the most outstanding boy of the class and Mrs. Leon Morton, representing the Legion auxiliary, presented the Auxiliary cup to Mary Jane Smith as the most outstanding girl of the class. This was followed by a chorus by the combined Girls' and Boys' Glee clubs.

The diplomas were presented by Vinal Randall, chairman of the school board. Rev. G. G. Edwards pronounced the benediction.

The Jack Korstjens family spent Sunday with friends at Divide.

FIRES AND FIRE PROBLEMS

Twice within the week, the Eugene fire department has had to send men and equipment miles into the country to help check fires. The Coburg fire entailed \$35,000 loss. The Elmira fire was much less costly, but it could have been very bad. Of course, this is an exceptionally dry season. The annual fire hazard has arrived early. It is time now to start getting rid of weeds and brush and all other factors in fire menace. But it is time also to think again of some definite and comprehensive plan for fire protection in rural and suburban districts. Eugene will never refuse an emergency call, we hope. But Eugene has scarcely enough men and pumps for its own needs. We need rural fire districts to deal with this problem in much the same manner in which high school problems and costs are distributed. Fire protection is cheaper always than fire loss.—Eugene Register-Guard.

Apropos of this same subject, a deputy state fire marshal will speak at the Silk Creek school house Tuesday evening, June 14. Silk Creek is making a comprehensive investigation as to what can be done in the matter of fire prevention and control in rural districts. Quite recently E. W. Ashley appeared before the City Council of Cottage Grove asking if the City Fire Department could give aid in rural fires. They replied that they could not leave the city without fire protection.

It is time to make some definite plans for rural fire protection and Silk Creek invites all interested persons in nearby districts to meet with them at the school house June 14.—Contributed.

The Sentinel believes it voices the sentiment of the community in expressing regret that Cottage Grove does not have adequate fire equipment to aid rural sections. Perhaps the "Boost Cottage Grove committee" might aid the Silk Creek community in their attempt to secure a solution to the problem.

DORENA GRANGE MEETING

The Home Economics club, an auxiliary of the Dorena grange, held a regular meeting last week at the home of Mrs. Claude Arne. Seventeen members were present. The club finished a complete wardrobe for one of the girls at the children's farm home at Corvallis, which Mrs. J. Schneider will take to the meeting of the state grange at Klamath Falls June 13, where it will remain on exhibit during the meeting. Blocks for quilts, which will be disposed of later, were given to those present. It was voted to send a donation to the grange home at Portland. Mrs. Arne and Mrs. Luther Bettis served refreshments. Prison Custom Not New

"Chumming-up" may look like a modern phrase, but 100 years ago it was common in English prisons. Newly-arrived prisoners were beaten by their fellow-inmates with sticks and staves until they chummed-up, or donated a certain sum of money to their fellows.

You may use up to 60% MORE GAS getting into "high" again

In today's stop-and-go driving, you're always shifting gears.

When in "low," your engine makes about 12 turns for each turn of the wheels . . . in "second," about 8 . . . in "high," only about 4.

That's why, in your stop-and-go driving around home, ONE mile on your speedometer may be TWO miles to your engine. It depends on how much of the driving is in low and second gears.

Shell engineers found that getting into high gear from a single stop can waste enough "undigested" gasoline to carry you 1/3 of a mile.

To cut this waste, they rearranged the chemical structure of gasoline, making every drop usable under all driving conditions.

YOUR GEAR RATIO

IN HIGH GEAR IS ABOUT 4 TO 1
IN SECOND GEAR IS ABOUT 8 TO 1
IN LOW GEAR IS ABOUT 12 TO 1

The more you STOP and START, the farther your engine travels in comparison to your wheels . . . and the greater your waste of "undigested" gasoline.

You can save on your stop-and-go driving costs by the regular use of Super-Shell. Try it—and see for yourself.
