Origin of the Airedale

The Airedale originally came from the Aire valley in England, hence its name, says Better Homes and Gardens magazine. He was developed from the Otterhound and an extinct black and tan terrier. The Airedale is considered king of the terrier family by many, is a loyal companion, splendid for children, and a good watchdog. He can be trained for hunting on both land and water, the latter trait having been handed down by his Otterhound forefathers.
