SIMPLIFIED MOTOR FOR PLANES BUILT

Has One-Fourth the Parts of Ordinary Engine.

Mexico City.—Joe Borneo, retired motorcycle and automobile racer, has just obtained a Mexican patent for a simplified airplane motor.

All details of the new motor are kept secret for fear that somebody in a country where patents are not respected might steal the idea.

"I've had more than 30 years experience as a mechanic," Borneo said, "and I have a Pennsylvania diploma. For the last four years I've put in all my experience and earnings in developing a new type airplane motor. My first experiment was a failure. The second was not so good, and now I have the third, which has been patented."

Borneo was born in Monterrey, Mexico, of American parents. He has lived mostly in the United States, and has raced there, in Cuba and in Mexico. He's now back in Mexico City, interested in pushing his new project.

The motor sounds like a marine motor. Borneo said that it is simplicity itself, listing among its advantages the following:

"It can be manufactured as a Deisel motor, or as an ordinary motor. It has one-fourth of the number of parts of any other motor; with one spark plug it makes four explosions per revolution. It has no gears, no connecting rods, no valves, no crankshaft, and no gas-let, and is therefore lighter than an ordinary motor. It has more torque than any other motor built.

"It is speedy, economical in original cost and upkeep. It can be made in series, with several motors right together. A motor can be cut on or off at will from the others in the series.

Borneo believes that eventually somebody will realize the potentialities of the motor, and that it will then be put into use.

CHRISTIAN SCIENCE CHURCHES

"CHRISTIAN Science" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 26.

The Golden Text was, "The ransom of the Lord shall return, and come to Zion with songs and everlasting joy upon their heads: they shall obtain joy and gladness, and sorrow and sighing shall flee away" (Isa. 35:10).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Another parable spake he unto them; the kingdom of heaven is like unto leaven, which a woman took, and hid in three measures of meal, till the whole was leavened" (Matt. 13:33).

The Lesson-Sermon also included the following correlative passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Jesus bade his disciples beware of the leaven of the Pharisees and of the Sadducees, which he defined as human doctrines. His parable of the leaven, which a woman took, and hid in three measures of meal, till the whole was leavened, impels the inference that the spiritual leaven signifies the Science of Christ and its spiritual interpretation,—an inference far above the merely ecclesiastical and formal applications of the illustration" (p. 117).

"MY SKIN WAS FULL OF PIMPLES AND BLEMISHES"

Says Verna Schleppe: "Since using Adlerika the pimples are gone. My skin is smooth and glows with health." Adlerika washes BOTH bowels, rids you of poisons that aggravate a bad complexion.

European Beauties Spy Out Military Secrets

London.—Beautiful, alluring, modern Mata Haris today are being used to obtain the military secrets of Europe's armed powers.

Never before in the peacetime history of Europe have so many beautiful young women been known to be engaged in espionage.

German, French, Swiss, Polish, Italian and Russian girls are known to be operating.

The identity of some of these women is known to the British intelligence service; others are under suspicion, but most of them are merely known to exist, their identities remaining a mystery.

A case in point is Countess Wielopolska, beautiful Polish woman who now languishes in Moabit prison, Berlin, awaiting trial on charges of espionage against Germany.

Although the penalty for spying against Nazi Germany is death it is believed that the Polish countess will be exchanged for a valuable German agent now behind the bars in Warsaw.

Countess Wielopolska was arrested by the German secret police aboard the Warsaw-Berlin-Paris express just 15 minutes after the train pulled out of the Berlin station.

In a French military prison, attractive twenty-nine-year-old Elsa Turch, a German girl, is serving two years for attempting to induce French men and women to act as espionage agents.

Before being caught and convicted, she was a familiar figure at Ystres, one of France's most important military aviation centers.

To Fool the Fairies

Because fairies are supposed to run away with male children, superstitious parents along the Conemara coast of Ireland dress their boys in red flannel petticoats so the fairies will think they are girls and not molest them.
