Catch Fish Use Bait Again While Sitting In Floating Bathtub

Among inventions patented recently were two unusual ones. They were:

A fish lure that makes it possible to use the same bait over and over again. The hollow lure is made of a transparent material, like celluloid through which the fish can see the bait inside. In use it is stuffed with bait, either live or dead, through an opening which is sealed by a plug.

A floating bathtub which would permit one to take a bath in the sea, lake or river. The bathtub is made of rubber and has a tubular rim which is blown up. In its sides and bottom are perforations which permit water to flow inside the tub when the bather sits in it.

Ancient Chinese Custom

To No was an ancient ceremony performed annually at Peiping, China, at the end of each year for the purpose of expelling the spirits of pestilence of the old year and enthroning the better spirits of the new year.

AMERICAN BOY MAGAZINE COMPANION TO THOUSANDS

Teachers, librarians, parents, leaders of boys' clubs and hundreds of thousands of boys, themselves, enthusiastically recommend THE AMERICAN BOY Magazine for all boys over 12.

"It's more like a companion than a magazine," remarked one high school student. "It gives advice and entertainment on every subject in which a young fellow is interested. I made our school basketball team solely because of

playing tips I read in THE AMERICAN BOY."

Trained writers and artists, famous coaches and athletes, explorers, scientists, and men successful in business and industry join with an experienced staff to produce, in THE AMERICAN BOY, just the sort of stories and articles boys like best.

THE AMERICAN BOY sells on all newsstands at 15c a copy. Subscription prices are \$1.50 for one year or \$3.00 for three years. To subscribe, simply send your name, address and remittance direct to
