Organized Markets

An organized market is one in which the trading is done under formal regulations. It is similar to a corporation in that it elects directors and officers who draw up and administer the rules of the organization. It resembles a club in that new members usually are admitted by vote of directors or members and pay dues as well as an initial admission fee.

Largest Library in Country

One hundred years ago the largest library in the country, then already a century old, the famous library of Philadelphia, contained 48,000 books.
