PRETTY FLOWER GARDEN

Mr. and Mrs. C. Mulvihill, who live in the southwest part of the city have one of the show places of this section in a flower and vegetable garden. While the flowers are not as beautiful as they have been owing to the lateness of the season they are still very

attractive. A person of ordinary height is almost hidden in a mass of blooms, so tall are the flowers, and if you are partial to a special color, you are almost sure to find it here.

Two reasons are assigned for the particular success of the

flower garden. One is the special care given the flowers in cultivation and the other is due to the fact that Mr. Mulvihill irrigates from the river, supplying needed moisture during the growing season with the use of an electric pump.
