STATE TEXTBOOK BOARD SELECTED

SALEM, Ore.—The state board of education today named C. R. Bowman, superintendent of Jackson county schools, and Mrs. Grace Sehon, principal of Central Howell school near Salem to the state textbook commission. The commission will have jurisdiction over textbooks to be used in state schools outside of Portland.

HOP GROWERS TO STUDY PROGRAM IMPROVEMENTS

Improvements in the Federal program for Pacific Coast hops and establishment of the 1939 salable quantity will be considered by Oregon-Washington growers on July 11 at the Chamber of Commerce in Yakima, Washington, and July 14, at the Marion Hotel in Salem, Oregon. A final session of the three-state hearing will be held July 17 in Santa Rosa, California.

Word of the hearing dates was received today from the Division of Marketing and Marketing Agreements of the U. S. Department of Agriculture at San Francisco.

The hearing has been called to consider amendments to the marketing agreement and order regulating hops grown in California, Oregon and Washington proposed by the industry control board administering the program.

Concurrently with each of the three sessions, meetings will be held to obtain information needed to enable the Secretary of Agriculture to establish the salable quantity of 1939 hops as required under the agreement and order.

The Federal hop marketing program was instituted at the opening of the 1938 season at the request of the industry in efforts to stabilize hop production in the United States in line with consumption needs and prevent surpluses which demoralize grower's returns.

Go for Fins in Attack
When fish fight they generally go for the other fellow's side, attacking his fins if possible. The most effective and quickest way to kill a shark is to damage its gills.

There are no ILLS from BILLS because of our pay-as-you-go methods. . . . No One is in Debt To Penney's!

Lumber Shipments Are Fairly Steady Market Improving

Lumber shipments from the Cottage Grove district has been on an even keel the past week with 98 cars shipped from this trade area compared with 103 the previous week. Next week is expected to show a further decline, due to the shutdown of most mills over the 4th of July holiday. Piling shipments for the week, however, showed a substantial increase over any period for the past 12 weeks.

While the general outlook for the market is much improved, the

improvement has not been felt here. According to Crow's Digest, the sales of fir have been greater than the production for the past 17 weeks. The trend has apparently reached the point where it can no longer be ignored, particularly with order files the largest they have been at any time during the year over the northwest. The July 4th shutdown is expected to increase the demand still further and strengthen the price. Some firms are reported charging a slight premium on mixed car items because of the shortage of some items.

BANK NIGHTS OUTLAWED

Bank nights over Oregon were a thing of the past June 30th. A state supreme court ruling against the practice became effective at midnight June 30th.
