Word has been received of the birth of a son to Mr. and Mrs. Jake Garboden, at Junction City. Mrs. Garboden is the daughter of Mr. and Mrs. R. B. Powell.

Mrs. Jake Stalder and son of Latham visited one day last week with Mrs. Stalder's daughter, Miss Anna Mae Stalder, at the home of Mrs. Amanda Sears.

Dr. and Mrs. A. W. Sears and two sons and Mrs. L. K. Brumfield attended the Pendleton roundup last week. On Saturday Brison Sears and L. K. Brumfield, accompanied by Miss Alsea Hawley of Divide, joined the party and accompanied them on a trip to Crater lake and other points, coming home by way of Medford.

Mrs. Della Crane, who had visited for an extended time with a son at Auburn, Washington, has returned to the home of a daughter, Mrs. Jack Peterson.

Mr. and Mrs. Boone Humphrey attended church services Sunday at Saginaw.

Mr. and Mrs. Harry Williams and Miss Marie Williams were Sunday dinner guests at the home of Mr. Williams' sister, Mrs. Tunis VanProoyen at Latham.

Harry and Dean Russem, who are employed at Bohemia, spent the week end at their home here.

Mrs. W. N. Dowens was a guest Sunday in Cottage Grove at the home of a brother, Emory Dailey, and visited with another brother, Tom Dailey, of the coast guards at Winchester bay, and Miss LaVelle Christianson of Westlake, who were also guests at the Emory Dailey home for the day.

U. OF O. TO OFFER AVIATION COURSES

UNIVERSITY OF OREGON

The campus of the University of Oregon will include the Eugene municipal airport this year, since plans now have been completed to offer a complete aviation course to approximately 30 students, it was announced by Dr. Donald M. Erb, university president. Approval of the University as a center, as selected recently by the federal government, was given by the state board of higher education at its last meeting.

Work of arranging curricula for the students has been delegated to Carlton E. Spencer, professor of law and a major in the U. S. Army reserve corps. Major Spencer has already conferred with Joseph Harrell, in charge of the Eugene airport and the two will have a complete program for ground and air instruction ready when the university classes start October 2nd.

The aviation course will be complete and students passing final tests will be given private pilot certificates.

Selection of students will be a major problem, it is pointed out. It has already been decided to limit applications to sophomores and upper-classmen, but whether the "first come—first served" rule will be observed, or competitive examinations given, has not been determined.

Additional pilots for instructors, new equipment and a new hangar will all be provided at the airport, Mr. Harrell states. The field is adequate in every way.

"What's inertia, Dad?"
"Well, if I have it, it's sheer laziness; but if your mother has it, it's nervous prostration."—Efficiency Magazine.

Cottage Grove, Ore.

Work Reservoirs Is Progressing

Preliminary work on both the Cottage Grove and Dorena dams continues unchanged. Test pit excavation and inspection occupying the attention of the engineers on the Dorena site while attention is concentrated on the test fill and laboratory work at Hebron.

An interview with J. L. Bargar, assistant engineer, supervising the field and laboratory work on the test fills, discloses many interesting points regarding this important work. Many and varied tests are made to definitely establish the mechanical qualities of the material to be used in the structures. Earth from an area expected to supply material for the structure is removed by means of a large Carryall Scraper and transported to the test fill where it is rolled and compacted as though it were in the permanent work. The technicians from the laboratory immediately commence securing the samples desirably before any appreciable evaporation of moisture takes place. Undisturbed samples of the fill material are secured by excavating a small pit, taking care to leave a mound of undisturbed material near the center and forcing a metal sampler tube downward into this mound. Slicing excess material aside until the tube is filled with earth. This type sample is forwarded to the Engineer Department Soils Laboratory at Portland where it is subjected to numerous tests. Great care is exercised throughout the tests endeavoring to preserve the original form and texture of the sample. A consolidation test is made to determine whether or not the soil particles are as closely compacted as possible. A portion of the sample is subjected to a test to determine its capacity for passing on or holding water. A very important test is called a "shear test." A cube of this sample is cut that will snugly fill a split box, meters indicate the energy necessary to produce a shear in the sample by sliding the halves of the container in opposite directions, thus demonstrating the ability of the material to withstand pressure and load carrying capacities.

At the Hebron laboratory many tests are made on various types of samples. A density test is made by use of a "compaction needle." This instrument resembles a tire pump in appearance being equipped with a needle instead of a hose on the lower end. The point is placed on the sample and slowly forced downward by the piston-like upper section. The degree of compaction is determined by the indication of the energy necessary to cause penetration by the needle. Samples from the test fills are weighed on being removed from the fill and again after being thoroughly dried in electric ovens to determine the moisture content of the original soil.

Study of the results of these exhaustive tests will enable the Engineering Section to design a complete and reliable method of construction procedure for this project.

"Who are those people doing all the cheering?" asked the recruit as the soldiers marched to the train.

"Those," replied the veteran, "are the people who are not going."

Don't expect any special privilege from Nature.

OREGON REPRESENTATIVES LEAVE FOR CONGRESS

Most of Oregon's representatives to the national congress entrained early this week for Washington, D. C., where congress meets today in special session. Senator Chas. McNary and Congressman Walter Pierce left Saturday and Senator Rufus Holman, Congressman James Mott and Homer D. Angell left Tuesday night.

The Congressmen are hopeful of a short session, yet they fear the session may be drawn out.

HOME SOLD

The Hugh J. Smith house located on west Main street, was purchased by Dr. Herbert A. Hagen. Mr. Hagen took this property over as an investment and will arrange same into apartments for rental purposes. Mr. Smith and family have made no definite plans for the future.

The deal was handled by the Hall & Johnston Realty Co.

Thornton Corners

Mrs. Leroy Halvorson of Mowich was a guest several days the first of the week of Mrs. Lyle Scott.

Mr. and Mrs. Ray Potter and sons of Culp Creek were visitors Sunday afternoon of Mr. and Mrs. R. B. Dixon.

Mr. and Mrs. S. P. Shortridge were visitors Thursday at the home of their daughter, Ms. Earl Nystrom at Springfield.

Mr. and Mrs. Joe Premazzi accompanied Mr. and Mrs. Martin Foster of Cottage Grove to eastern Oregon the first of the week on a hunting trip.

William Habinck of Scenic, South Dakota, is a guest at the home of a daughter, Mrs. Frank Gireau.

Mrs. Arlie Myers of Eugene and her sister, Mrs. Agnes Spear of California were visitors one day last week of Mr. and Mrs. S. P. Shortridge.

Leslie Horn of Crescent City, California, was an overnight guest Saturday of an aunt, Mrs. George Foster, while enroute to attend the funeral of his father at Bay Center, Washington.

Mr. and Mrs. E. Eichler of Curtin were guests of honor at a birthday dinner Sunday at the home of their daughter, Mrs. Gene Boss, in honor of both Mr. and Mrs. Eichler's anniversary.

Mr. and Mrs. Bill Overholzer of north of Cottage Grove were visitors Monday evening of Mr. and Mrs. Charles Feizette.

Robert Gireau, who is attending Northwestern business college in Portland, spent the week end here.

Mosby Creek

The Get-together club met for all day in Cottage Grove with Mrs. Dave Rissue and Mrs. Irvin Pacholke. A potluck luncheon was served at noon and there were three birthday showers in the afternoon. The next meeting will be with Mmes. Rawlings and Reams.

Mr. and Mrs. Harry Castle and Leon Lancaster visited Saturday evening at the George Foster home with Mrs. Castle's nephew, Leslie Horne, of Crescent City, California.

A wedding dinner was held Sunday at the Floyd Jones home honoring the newly-weds, Mr. and Mrs. Charlie Rearic.

Mr. and Mrs. Ted Seward and baby of Portland and Mr. and Mrs. Bill Chapman of Creswell

were callers Sunday afternoon at the Harry Castle home.

Mrs. Arlie Salisbury and baby of Westfir spent last week with Mrs. Orma Salisbury.

Mr. and Mrs. Dan Dugan of Divide have moved into their new home at Walden.

Mildred Dugan of Cottage Grove spent most of her two weeks vacation at the Lee and Dan Dugan homes.

Mac Tonoli is digging a well on his place.

Leo Dugan of Portland spent the week end with home folks.

Mr. and Mrs. A. C. Lyle of Eugene were callers Sunday at the A. C. Ball home.

Considering that history always repeats itself, it's a wonder some of us don't learn faster.
