Mr. and Mrs. Herman Gleaser have gone to Newport to visit at the home of their daughter, Mrs. Ruby Burch.

Mr. and Mrs. Glenn Phienning and girls of Culp Creek were callers Sunday at the Doc Pitcher home.

Home 'Reflections' Multiply

Twice as much mirror is being used in houses constructed today as was used 10 years ago, according to William Pahlmann, New York decorator whose show of model rooms, staged in New York, revealed increasing emphasis on colored plate glass and mirrors for interiors.

New Law to Effect Oregon Motorists

Every motorist in Oregon will be affected by the 1939 vehicle code amendment according to the legal department of the Oregon State Motor association. The new law calls for the re-testing of Oregon drivers at least once every four years.

Important points of the law outlined by the Motor Association are:

1. Licenses now held will expire in 1941 and may be renewed then for a two year period (until 1943). But before the 1943 renewal can be made, the automobile operator's examination must have been taken.

2. Licenses will continue on a two year basis—renewal to be made in 1941, 1943, 1945, etc. But the examinations must be passed every year. Thus a man might get his 1941 license without an examination; take an examination for his 1943 license; get the 1945 license without an examination; must have an examination for his 1947 license.

3. There is no charge for the examinations. Drivers may be given the examinations at any time upon application at the license bureaus.

4. Drivers are warned, however, that failure to pass the examination when it is taken may mean the suspension of their permits. No one should take the examination without carefully preparing himself by studying the pamphlet—"Operator's Manual" which is supplied free by the Secretary of State's office. Copies are available at the Oregon State Motor association headquarters.

HEBRON HOME EC CLUB MEETS

(Delayed)

Members of the Home Economics club of Hebron Grange met on April 3rd at the home of Mrs. Leon M. Morton. At the business meeting it was decided to hold the quilt drawing at the first meeting of the Grange in May. Following the business meeting the evening was spent at needlepoint work, and refreshments were served by the hostess.

Guests were Mrs. C. E. Fisher of Portland, Mrs. Hugh Harris and Miss Bernice Patton. Members present were Mesdames Charles Fuhrer, Seldon Powell, Fred Harris, Alfred White, Frances Patton and Leon Morton.

We'd Rather Talk BUSINESS than BALLYHOO!

HIGH-PRESSURE SELLING ISN'T one of our strongest points. In fact, we're no good at it. After you've sold Fords for awhile you get pretty fact-minded, and lose your touch for Barnum ballyhoo.

WE CAN STICK TO FACTS when we sell this 1940 Ford V-8 and still give a plenty convincing argument for buying one. And we especially like to talk to prospects who own some other low-priced car, or who have shopped around. For the more they know about other cars, the more they'll see in a 1940 Ford V-8.

NO OTHER CAR in the low-price field has the smoothness and zip of an eight-cylinder engine, a dual down draft carburetor, semi-centrifugal clutch, torque tube drive, or three-quarter floating rear axle. Yet all of these engineering features are so good that they're found on one or another of the more expensive, "big brother" cars of various companies. You get them all in a 1940 Ford V-8, at the low Ford price. That's engineering... not "billboard engineering"!

AND FOR THE LADIES, who aren't very interested in engineering, here's a special invitation. Come down to our showrooms and see what Ford has done to these 1940 Ford interiors! They're truly lovely. You have your choice of fine fabrics and two-tone interior color combinations that are really new and exciting. The fittings and accessories are in the same good taste you'd demand in your home... not gaudy or fancy. Why not drop in today and see the car that's leading the style parade for 1940!

Get the FACTS and you'll get a FORD V-8
