

Flying Club to Have Plane in Operation By the First of July

The local flying club will have available for students about July 1st a new Welch Monocoupe, J. H. Petersen, club president, announced Tuesday. Decision to purchase the plane was reached at a meeting Monday evening held in the Petersen hall and attended by about thirty members. Members were given a copy of the by-laws and constitution of the club Monday and it was announced that another meeting will be held next Monday, June 3rd, to discuss a landing field and hangar. At the last meeting it was announced that a representative of the CAA would fly down and assist in the selection of a field.

The club also plans to build a hangar on the field when one of several likely spots is definitely chosen. Club members feel that the time is ripe to secure aid in maintaining a landing field here from the civil aeronautical authority, but need help from other organizations.

Club officers this morning said they were looking forward to a visit from Major Wylie Wright of the CAA, due here sometime this week. Major Wright will inspect prospective landing fields.

COMING EVENTS OF INTEREST; THINGS YOU SHOULD KNOW

Preparing for Camp

Members of Battery E are preparing for the annual encampment period, which starts at Camp Clatsop, June 13th. The boys will entrain for camp the 11th. A full contingent of sixty-three enlisted men expect to attend. Dale Bennett and Oscar Newton have been recommended for promotion to sergeant. Benny Jackson and C. McCormick, both of Walker, are new recruits. Sergeant Merle Wright has served his enlisted time and withdrawn. Also Sergeant Nelson Whippas has withdrawn because of his inability to attend practice sessions.

Strawberry Time

Strawberry harvest is in full swing in this district now. The harvest is a bit earlier than last year due to favorable weather and incidentally the berries are more plentiful because of a better yield. Canning and storing strawberries has been and will be the order of the day for sometime to come.

First Crop Hay

The first crop of hay is about harvested and farmers have been favored with good weather and

lots of sunshine, which is necessary for a good crop. Incidentally both the quality and quantity is reported fair to excellent.

General Level of Farm Prices Now Above Last Year

Despite lower prices for wheat, the general level of prices for farm products in Oregon was about the same at mid-May as a month previous, according to information on the agricultural situation just issued by the Oregon agricultural extension service. Compared with a year ago, farm prices in Oregon averaged approximately 7 per cent higher, although foreign demand for such farm products as are produced in Oregon for export markets has declined greatly since the European war started.

The general improvement in farm prices compared with a year ago may be attributed largely to greater income and consumer purchasing power. For instance, the government index of industrial workers' income is approximately 10 per cent higher than at this time in 1939, although not as high as before the recession which took place during the first three months of 1940.

"Thus far, the war has stimulated industrial activity in this country, giving domestic consumers increased purchasing power," says the report, "but exports of farm products from this country have decreased."

The volume of exports of nearly all United States agricultural products, except cotton, has declined since the war in Europe started, and much uncertainty exists regarding the ultimate effect on foreign demand for our farm products. Considerable uncertainty exists also regarding the duration and course of the war and possible effects on domestic demand.

Great Britain and France have pooled their buying operations under complete government unified control and are buying on the basis of economic warfare and diplomatic strategy as well as to supply needs.

The dominion countries and South America are supplying far greater quantities of farm products than during the World war, as production has increased greatly during the past 25 years and the capacity of available shipping facilities is much greater.

If the war continues for two or three years, there may be some shortage of farm products and a large demand for industrial materials for war. On the other hand, early cessation of hostilities, or fairly definite indications of an end of the war within a year or less, would affect the industrial and business situation in this country adversely.

BUILDING, REPAIR PERMITS

The following repairs and building permits have been issued at the city office recently: Mrs. Elizabeth Green, remodeling residence at 717 South Second; Z. A. Coop, building pattern shop at 10th and Jefferson; W. H. Daugherty, 1206 West Main, new residence.

Notice of School Meeting

NOTICE IS HEREBY GIVEN To the legal voters of Union High School District No. 14 of Lane County, Oregon, that a school meeting of said district will be held in the Music Room, Union High School building, Cottage Grove, Lane County, Oregon on the 24th day of June, 1940, at 7:30 o'clock P. M. for the purpose of discussing the budget for the fiscal year beginning June 24, 1940, and ending June 23, 1941, hereinafter set forth.
