GAS TAX RETURNS REACH NEW MARK

Motorists in Oregon paid \$10,591,000 in state gasoline taxes in 1939 according to Ralph A. Coan, Portland, treasurer of the Oregon State Motor Association. The national figures reached \$816,433,000—an increase of \$49,580,000 over 1938.

Levies on motor fuel now supply approximately one-quarter of all the tax revenue of the states. Annual state gasoline tax receipts now exceed in amount the annual total of all tax revenue for the states prior to 1922.

Oregon ranked 30th in the nation in total taxes collected, falling behind the other coast states with California ranking fourth and Washington 19th.

The motor association official also said that the gross consumption of gasoline in Oregon during 1939 was 241,169,975 gallons—an increase of 37,815,975 gallons over the 1938 level of 203,354,000 gallons. The greatest consumption of gasoline—both in Oregon and nationally—comes in August; though better cars, better roads, and better gasoline have leveled off the demand for gasoline and no month is appreciably low.
