SPEAKING OF CORONER

You need a change
I need your vote
And I'm here to say
That it's no joke
With taxes high
And kids in school
And I'm not rich
Like MR. POOLE
He's held this office
Eight long years
This very thought
Moves me to tears
Now do your DUTY
Go and vote
X-37 will be my vote
And now my friends
You clearly see
That I NEED YOU
And YOU NEED ME.

JUST WHO IS GOING TO BENEFIT FROM THE PUD

Know The Truth Before You Obligate Yourself
And Your County With A New Taxing Unit!

For those who may still be in doubt as to the vague "benefits" so glowingly described by the PUDders, it is time, **RIGHT NOW**, before election day, to turn to the records and see what has been done in counties where PUDs have been organized.

This record speaks for itself! You can see exactly how the PUDs feed on the taxpayer's dollars! Money has been spent, hand over fist, yet in almost every case, analysis shows that the customer is paying rates that are no lower than those you are now enjoying.

In sharply defined contrast to the picture presented where the voters have turned over the power business to the politicians, we ask you to . . .

CHECK THIS RECORD of ACCOMPLISHMENT!

When the economic foundations of this nation literally collapsed in the early 30s, this company as well as all other business, found itself in a very serious financial condition. Yet the Mountain States Power Company realized full well that electric energy was one service that not only must be maintained but must be made available to more homes with each passing year.

The record speaks for itself! Not only in this county but in all the areas served by this progressive, self-supporting, tax-paying company the rate structures have brought cheaper power to our customers than ever before! At the same time extensions of service have brought electricity to more farm homes than ever before!

A DEFINITE PLEDGE has been given to all our customers—that any and all economies will be passed on to our customers—that further extensions of service will be made as conditions warrant and without any additional taxes on your property—so the benefits of electric service can be enjoyed to the fullest extent in the home, on the farm or in business.

Compare This Record and Pledge With All the Empty Promises of the PUDers!

\$79,000 BONDS FOR \$40,000 PROPERTY!
