Pioneer Voter.

Capt. S. E. Whiteher of Gonzales, Calif., has cast his nineteenth presidential vote. He has not missed an election in the last 72 years, starting in 1828 at Corralitos, Calif., where he cast his first ballot for U. S. Grant.

Light Both Lamps.

The odds are that both filaments of a headlight bulb do not burn out at the same time. Rather than drive with only one light, switch to the beam which provides that both lamps will operate.

Oil Base Products Countless.

What comes out of an oil well? Oil is the obvious answer, but the number and variety of marketable products are practically endless. One company which operates four refineries gets approximately 450 different products out of crude oil. Among them are 26 types of gasoline, 30 different solvents, five grades of diesel oil, 15 grades of fuel oil, 35 types of oxidized asphalt, 15 industrial oils, 40 types of highway asphalt, 80 greases, 25 home and automotive specialties, and 135 different lubricating oils.

Thief Likes Soft Rugs.

An ingenious thief accomplished an amazing act of thievery, according to the manager of a Chicago apartment house. Police, while admiring the feat, would like to nab him and ask him how he did it. One morning, recently, the manager discovered to his amazement that sometime before dawn, a thief, without disturbing any of the guests, had quietly pushed tables, chairs, ash stands and other furnishings out of the way and then departed with a 12 by 12 ankle-deep rug that was in the lobby. And the doors and windows of the apartment are locked tight every night.

Italy Extending Electric System.

Italy is rapidly extending its electric power system. Official figures at Rome show that last year 500 or more miles of railway were electrified, bringing the total up to nearly 2,500 miles. The newest power development is the harnessing of the Italian lakes, whose beauty will not be impaired despite the fact that the waters will be utilized for both industry and agriculture.

Making Toast.

When making toast, it improves it both in taste and digestibility if the slices of bread are laid in the oven for a little while before toasting them. They will toast better and more evenly if given this advance treatment.

U. S. Leads in Strikes.

In 1938 the United States had the most strikes. It led the world with 2,772 labor disputes, causing a loss of 9,145,373 working days.

FFA MARKETING SCHOOL APRIL 22-23.

At a meeting called by Earl R. Cooley, state supervisor of agricultural education, and held at North Portland on January 7th, it was decided to hold a Future Farmer Livestock marketing school at the Portland Union Stockyards on April 22 and 23.

An invitation has been extended to all Future Farmers of America in the State of Oregon, who are at all interested in livestock, to attend this marketing school on these dates. This will immediately precede the state F.F.A. convention at Corvallis on April 24, 25 and 26.

H. B. SALLEE RESIGNS

Henry B. Sallee, executive secretary of the Willamette council of Boy Scouts with headquarters in Eugene has tendered his resignation effective February 1st, it was learned Friday. At the time of his resignation, Mr. Sallee stated that he was not ready to make an announcement of his plans other than that he would probably remain in scout work. He has been a scouting executive for the past eleven years. His successor had not been chosen up to the first of the week.

Word has been received from Olympia, Washington by Mrs. Mary M. Huff of the death of her grandson, Lorin E. Hannaford. Dispelling Odor of Cooking

When a cooking odor permeates the kitchen, housewives have burned cinnamon, old newspapers and any number of household remedies to dispel the odor. But they don't have to resort to these any longer, for a very simple gadget has been put on the market that does away with unpleasant cooking odors. A simple glass container, that holds a cup of water, is put on the fire. When it comes to a boil, four or five drops of incense are dropped into it. After boiling for five minutes, the heat is turned off and the odors disappear. Clean, simple and easy to use, a few of its good points.

A Legend Ruined

The Telemaque, a French brig sunk in the Seine of Quilleboeuf 150 years ago, which was believed to have been carrying part of the personal fortune of Louis XVI and other treasures, has been raised after salvage operations lasting nearly a year; but the only object of interest recovered was a barrel of rusty hand-forged nails.

Unemployment Costs

According to the National Resources committee, unemployment during the depression cost the nation \$200,000,000,000, which included idle men and machines.

ARMORY

WEDNESDAY, JAN. 22

Admission 25c for Adults and 15 Cents for School Children and High School Students.

All proceeds above actual expenses will go toward the the campaign to stamp out infantile paralysis. Let's pack the armory and see a good game for a good cause.

Owing to heavy expense, the usual President's Ball will not be given January 30th this year. Instead the committee wishes to urgently invite all civic organizations to join in the infantile paralysis campaign and give some form of entertainment, whether it be a bridge party, private dance or wrestling match, the proceeds to go for South Lane's part of the campaign to fight infantile paralysis.

More infantile paralysis cases occurred in 1940 than during the years of 1938 and 1939 combined. Let's do our part to help win the fight. To do this more funds will be needed to fight an epidemic that is on the increase.

Both the union high school band and the grade school band will appear and render several selections at the basketball game.
