Whether you Build, Buy or Rent-insist on

ADEQUATE WIRING!

Only when wiring is adequate and outlets are sufficient to serve the appliances you have, can you enjoy the full comfort and convenience of modern electric living.

• • So, whether you build, buy or rent, be sure to see that there are plenty of outlets and switches . . . not only for your immediate needs, but for the future as well. Insist, too, on wire large enough to supply full power for good lighting and maximum efficiency from appliances.

COMPARE

a Mail-Well Envelope with any Envelope and you will readily see the superiority of Mail-Well construction

• Notice in the above illustration the entirely different construction of the two envelope flaps. Figure 1 shows the old style flap. Figure 2 shows the "Mail-Well" flap which has been designed to protect the contents of the envelope. The outstanding advantages of this special high shoulder flap are:

It allows adequate room for heavy gumming at the corners, the envelope's weakest point, where added protection is most needed.*

It assures safe delivery of the contents even when stuffed to capacity.

It gives easy access to the letter opener although sealed nearly airtight.

You can best judge the merits when you have a Mail-Well and any other type envelope in your hands. Let us show you samples—a comparison will readily convince you of the added protection given your mail by Mail-Well envelopes. You will be under no obligation to order.

*All envelopes ride on the flap edge when going through the sorting and cancelling machines at the Post Office.
