Auto Industry Is Biggest Business

The automobile industry is truly 'big business' affecting people in every type of activity, according to a preliminary survey for last year which has just been received by the Oregon State Motor association. The most important factor is the production of cars and trucks reached 4,476,000 units, an increase of 25 percent over 1939.

Some of the pertinent features of the review are listed as follows:

"Wholesale value of cars and trucks produced last year exceeded three billion dollars;

"United States registration reached nearly thirty-two million units while the world's total of vehicles was only forty-seven millions. The United States has 69 percent of all vehicles.

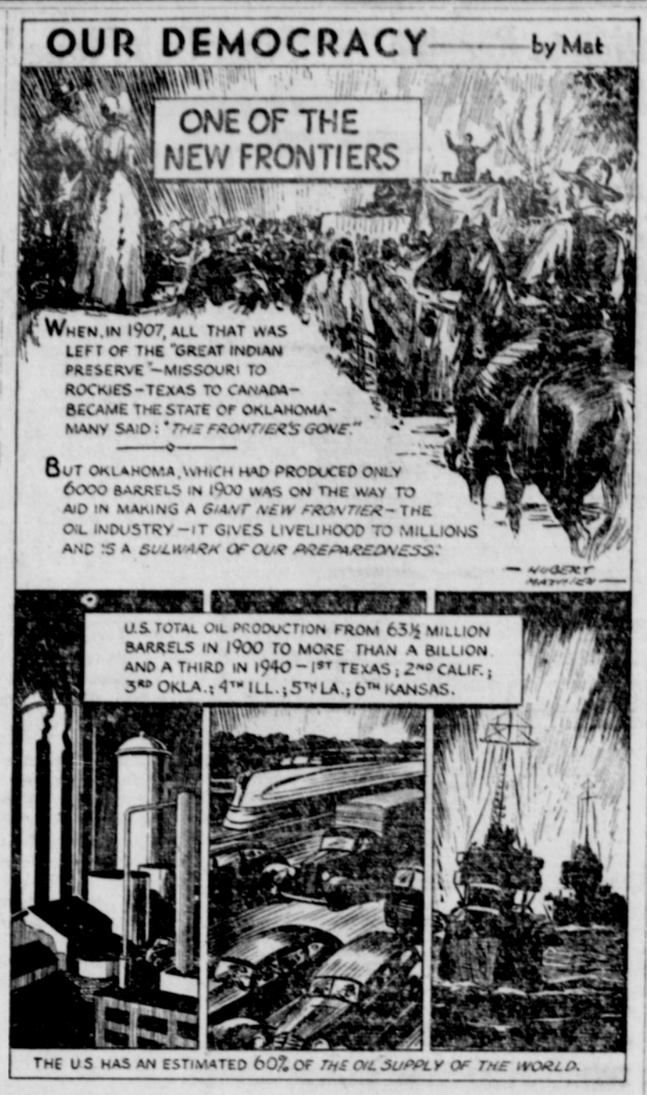
"On farms and in communities under 2,400 population there are 41% of vehicles in use with 59 percent being registered in larger areas.

"The total motor vehicle users taxes paid last year were $1,772,000,000, which represents 11 percent of taxes paid from all sources, federal, state and local.

"Despite war conditions there were 230,500 vehicles exported from the United States; these had a value of $280,000,000."

In the trade field, vehicles also were important due to the operation of 41,494 dealers, 87,366 repair shops, 6,264 wholesalers and 400,000 retail gasoline outlets.

Automobile and truck factories employed 443,000 persons last year and paid weekly wages of $15,400,000.



FROM REAR RANKS

(Continued from front page)

years. But as the flag passed those bowed shoulders snapped erect and his old leather cap crossed his heart. He stood as straight as any first day corporal and his eyes had a look undescribable. It was a mixture of pride, reverence, faith and trust. They were clear and bright not reflecting servitude or forced respect but something so deep that it cut you like a knife. Every man that passed and observed intercepted the same thought. This tired little old man, so much like our grandads, had unselfishly interpreted for us the reason for the tightening of OUR throats and why WE believe. We must be right.

Privates Bob Nelson and Elwyn Woodson have returned from Fort Canby, where they made an inspection of the communication equipment.

Private Raymond Monroe has been promoted to Mess Sergeant and is doing a mighty fine job.

Sergeant Harold Minney was sure of a place in the first car home this week end but was scratched at the last minute. Say, those measles really get around, don't they.

Our new bakers are Privates Archie Henshaw and Robert Vaughn, and they really made some swell donuts tonight.

It Has Been Said:

Join the Artillery and ride to war. Our question now is, why does the new infantry regiment have more trucks than we do?

CARD OF THANKS.

We wish to thank the Neighbors of Woodcraft, Rebekahs, Odd Fellows and members of the Townsend club for their kindnesses and services and for the floral offerings at the death of our loved one.
R. E. Jones, Leo C. Jones, Mrs. Dalton Turpin. 31-1tc

SAVE YOUR VISION.

Optometrists of the Eugene and Cottage Grove district will join with other members of their profession all over Oregon on March 12th, in answer to the national roll call of optometry so that each doctor may take stock of his ability to serve his community and his nation in case of national emergency. This program is part of the fourteenth national "Save Your Vision Week" (March 9-15), a period set aside each year to concentrate upon the problem of eyesight conservation.

Poor eyesight is a major problem in America today. As industry gears itself to the rapid tempo of the defense program, our eyesight problem is going to become even more serious. Longer hours of work as well as rushed production are certain to increase accidents and fatigue, and eye defects which already exist will be aggravated. New industrial processes for which adequate safety measures have not yet been developed will add to the danger. New workers employed on new jobs in unfamiliar surroundings will be subjected to additional hazards and increased strain. The optometrists are in a position to be of immeasurable assistance in strengthening and speeding up the national defense program.

The only way we can meet the demands of this critical situation is through a large-scale eye-care program which will involve the cooperation of optometrists, lighting experts, representatives of industry and labor, safety engineers and people's organizations.

CURE FOR DRUNKENNESS

Two Seattle, Wash., doctors have announced a new method they claim to have used successfully to cure drunkenness in 350 cases, during the past year. Under their treatment, patients are first given a drink of good liquor folloed by an injection of a nauseating drug. This is repeated from four to seven times each week until they develop what is termed a conditioned aversion to liquor, apparently brought about by the association of the drink of liquor and the drug.

Mr. and Mrs. Wm. Funk and daughters and Mr. and Mrs. O. W. Blackmore plan to leave Thursday for a few days visit at Gridley, California at the home of Mr. Blackmore's sister and husband, Mr. and Mrs. Wallace Beaver.

Standard Oil to Give 700th Radio Broadcast

With one of the finest orchestras in America, under the direction of Pierre Monteux, internationally famous conductor, Standard Oil Company of California will celebrate tonight the 700th consecutive performance of the Standard Symphony Hour, over the Mutual-Don Lee Network from 8 to 9 p. m.

In announcing that an "All Request" program has been prepared for the occasion, Company officials pointed out that the Standard Symphony Hour is almost unique in being kept free from commercial announcements, the Company's products being principally advertised in daily and weekly newspapers.

According to Pierre Monteux, conductor, the long-continued popularity of the program—it is one of the oldest chain broadcasts on the air—is due to the fact that most people naturally enjoy good music.

WILLAMETTE FOREST SELLS LARGE BLOCK FIR TIMBER.

J. R. Bruckart, supervisor of the Willamette national forest service, announced Monday at Eugene that the Westfir Lumber company has purchased 3,000,000 feet of Douglas fir timber adjacent to the Willamette highway 1½ miles east of Oakridge.

Half of the timber, which covers about 100 acres of land, will be logged selectively; that is, a third of the marketable timber will be removed. The remainder which is situated on a steep slope some distance from the highway, will be clear cut.

Chrysler Officers Reassure Dealers

Principal executives of the Chrysler Sales Division, Chrysler Corporation have been holding a series of meetings with their large distributors and direct accounts for the purpose of laying before them the present situation and indications for the immediate future as regards sales and production.

Meetings have been held in Detroit, New York, Chicago, Kansas City, Atlanta and Pittsburgh. The party representing the factory comprised David A. Wallace, president, Charles L. Jacobsen, vice president in charge of sales, Stewart W. Munroe, general sales manager, and K. B. Brown, president of the Chrysler-Detroit Company.

President Wallace assured the group that assembled at each meeting that the factory would be able to supply all the cars they could sell in the 1941 model year. He urged distributors and dealers to move cars with all possible expedition instead of accumulating inventory.

Vice-President Jacobsen, who recently has thoroughly covered the greater part of the United States on visits to the sales organization, reported that Chrysler is enjoying the greatest business in its entire history and that the outlook for the remainder of the 1941 model year indicates continuing and increasing gains.

At all of the meetings, the dealers and distributors showed a high degree of enthusiasm. Without exception they reported that a very large factor in the current unprecedented demand for Chrysler cars is the popularity of Fluid Drive and Vacamatic Transmission. It was generally reported that owners of cars so equipped are helping to produce sales because, in their enthusiasm for these features, they are going out of their way to make their friends acquainted with the virtues of the 1941 cars.

TIMELY RECIPES

Butter Sauce a la Creole.

1 cup cold water
4½ tbsp butter.
1 tbsp flour
Juice of one lemon

Make a sauce of one-half cup cold water, one-half tablespoon butter and the flour. When the mixture boils, stir in quickly four tablespoons butter and add, by degrees, another one-half cup of cold water to keep the mixture from boiling. Stir in the juice of a lemon and strain. It must be served at once and hot. One tablespoon of chopped parsley may be added.

Hollandaise Sauce.

½ cup butter
Yolks of 3 eggs
Juice of ½ lemon
1 tsp salt
¼ tsp pepper
½ cup boiling water

This is one of the best sauces for fish. Beat the butter to a cream, add the yolks of the eggs, one at a time, and beat well, then add the lemon juice, salt and pepper. About five minutes before serving, add the boiling water, a little at a time, stirring well. Place the bowl in a saucepan of boiling water, and stir rapidly until the sauce thickens like boiled custard.

Cheese Fondue.

1 cup grated cheese
2 tsp butter
1 cup milk
1 cup soft bread crumbs or
1 cup cooked rice
1/3 tsp salt
3 eggs
Cayenne

Scald the milk and pour it over the crumbs or rice, then add the butter, the cheese and seasonings. Beat the egg yolks slightly and add to the mixture, then fold in the stiffly beaten whites and turn the mixtures into a buttered baking dish. Set in a pan of water and bake in a moderate oven (375 deg.) until firm on top.

Miss Virginia King of Portland spent the week end at the home of her parents, Mr. and Mrs. Carl King.

Strawberry marble ice cream is different. Try it at Gustafson's. 31-1tc-4i

Boy Scout Report

The following report on the financial activities of the local Boy Scout troop may be of interest to the general public:

During the past year the Boy Scouts of Cottage Grove have made very satisfactory progress from the point of attendance at meetings and advancements. The troop committee feels that the time and money spent in the scouting cause has been well spent. The time is drawing near when we will have to solicit funds to carry through the work of the coming year. We wish to submit the following brief report, that you may know just how the funds are being used.

Total contributions, $167.00.

Disbursements:

Wallamet Area Council	$100.00
Troop flag	5.15
County Scout Circus	9.98
Registrations	10.00
Rent, merit badges, pamphlets, scout library, first aid kits, scout promotions etc.	23.00
Total	$148.13
Cash on hand	$18.87

Signed by Troop Committee,
E. M. TILTON, Chairman,
ERWIN HANSEN, Sec. Treas.

THIS LIBEL SUIT PROVED "BLESSING IN DISGUISE."

NEW YORK, — Several weeks ago Rep. Martin Sweeney of Ohio instituted 70 libel actions, asking a total of $7,000,000 from Drew Pearson and Robert S. Allen, authors of "The Washington Merry-Go-Round," from the syndicate which distributes the column to daily papers and from newspapers that published one of their articles which, Sweeney charges, accused him of racial prejudices. Eight of the cases have been tried and in all of them Sweeney lost. The last was tried in federal court here recently.

The morning after the trial, Drew Pearson sent the following telegram to Rep. Sweeney from Washington:

"Dear Martin: You have probably guessed that I haven't been too enthusiastic about sitting through these libel cases you have brought against us, even though so far we have won them all. However, today I certainly was glad you had sued us. For I was supposed to have been on the plane which crashed in Atlanta early today. In fact, I was on that plane when I left New York but got off in Washington because our long drawn out New York trial forced cancellation of a New Orleans speaking engagement. So I think I really owe you something and if I had the seven million bucks for which you are suing us I'd gladly give it to you right now."

FIVE ENLIST IN ARMY

Five more young men from Lane county have enlisted for three years of service with the regular army, Lt. Col. B. H. Hensley, Oregon recruiting officer reported today.

Among the enlisted are James F. Easley of Cottage Grove for the CHQ air-force detachment at Fort Douglas, Utah.
