The Switch is TO SWITCHES AGAIN

MRS. 1890: Electricity's so clean and safe and cheap that some day everyone will switch to switches and say farewell to flame!

MRS. 1941: Electricity's so clean and safe and cheap that no wonder 3,000,000 women have already switched to switches for cooking, as their grandmothers did for light! Less work—flameless electric heat doesn't blacken pots and pans. More free time—automatic electric heat requires no stay-at-home watching. Better tasting foods—radiant electric heat saves flavor, juices, vitamins; makes baking always turn out right. Yes, the switch is to switches again, and I'm mighty glad I've switched.

Fast AS FIRE WITHOUT THE FLAME—Clean AND Cheap, LIKE ELECTRIC LIGHT—THAT'S WHY The Switch is to Switches again!
