But few men have known the time in their lives when they did not need a quick loan to meet an emergency. These times seem to come during the days when an individual is struggling financially. Few situations are more embarrassing and more trying than when one needs money and it is not available. Perhaps you lived in a strange community at the time. The bank didn't "know" you. The only recourse is to go to some friend—and few of them are accommodating at that time.

It was to meet needs like this arising every day in this and in every other community that this confidential loan company was organized. They felt that reliable borrow could be saved much embarrassment and inconvenience by the establishment of such a loan

service. The result of this was the organization of Calkins Finance Company in whom the people can place every confidence.

It is a confidential, dignified transaction. You need not humiliate yourself by going to a friend and admitting that you are in need.

A loan service such as this one is a real asset to any community. Its success, of course, is due to the high character and the financial ability of the men and women who direct its course of affairs.

This business is operated under real management and provides a place where honest people can borrow up to \$500.00 and have as much as 18 months to repay on weekly, bi-weekly, or monthly payments at low rates of interest. We wish to refer them to all of our readers in this business review.
