Bible Doesn't Say It

One very often hears someone declaring that the Bible says "Cleanliness is next to Godliness"; but the Bible says no such thing—in spite of the fact that many of the laws of Moses were designed to insure cleanliness and good hygiene. The saying is attributed to Rev. Charles Wesley, founder of the present Methodist Episcopal church. There was so much filth in his day that he created the phrase to make cleanliness a matter of conscience and religion. He thus made religion practical to millions of people since his time.

What an Atom Is

All matter is believed to be made up of extremely small particles, too small to be seen under the strongest microscope. These are called atoms. Each atom is believed to possess a center or nucleus, and a shell. The nucleus of the atom is a dense mass of protons which are positive electric charges and around these, holding them together, are approximately half as many electrons, which are negative electric charges.

The 200-year-old mansion known as "His Lordship's Kindness" near Clinton, Md., is purported to be the first house built in America under the supervision of an architect, who was imported from England to plan its erection, according to the American Motorist.

Cogri Dog

The Cogri dog has a head like that of a fox, and wide between the ears, nose, black; teeth, large; ears, pricked; fairly long neck; short tail; legs as short and straight as possible; coat, dense, medium length; any color but pure white; not over 12 inches high at the shoulder.

Several old iron hammers weighing hundreds of pounds and run by water-power for the production of cast iron more than a century ago are in the possession of persons in Cherokee county, N. C.

Good Auto Law
One of the many good laws they have in Massachusetts is that all automobiles must submit to a semi-annual mechanical inspection. If the car is found not to be in good mechanical shape it must be kept off the road until fixed up. Pennsylvania has a somewhat similar law.

Goat Milk
Every suburban family should own a goat, because a goat will produce from three to five quarts of milk daily and will require but one-seventh the feed of a good cow, according to County Agent Willis H. Hoyt of Walpole, Mass. He pointed out that more people in the world drink goat's milk than any other kind of milk.
