NO SHORT CUT

William M. Jeffers, rubber czar, recently struck hard at loose and careless talk about the rubber problem. The rubber problem is not licked; there is a definite rubber shortage; there will be tires for all only if the most stringent measures are applied and received with 100 per cent cooperation on the part of the public. That is the grim truth.

There is no easy short cut to rubber conservation, or to the production of more rubber. "The facts are," Mr. Jeffers said, "that the Japanese cut off 90 per cent of our supplies and that as a result the United States is compressing into two years the building of a tremendous synthetic rubber industry which ordinarily would take a dozen years to build."

"The greatest reserve supply of rubber we have in this country is in the million tons of rubber in the tires of our passenger cars and trucks. We must stretch that million tons as far as it will possibly go—and maybe a little farther."

HAVE AND HAVE NOTS

The Have Nations. The Have Not Nations. These words were in everyday use a few years ago. The Have Nations were those we now call the United Nations. The Have Nots now constitute the Axis.

America and Great Britain, authors of the Atlantic Charter, are truly Have Nations. Hitler, Mussolini and Japan are truly the Have Nots. Why?

We have free speech. They have not.
We have free thinking. They have not.
We have free teaching. They have not.
We have respect for religion. They have not.
We have reverence for human dignity. They have not.
We have practices described as justice, charity, mercy. They have not; they have only the highest interests of the state.
We have the common welfare, by which we mean men, women, and children. They have not. They have only the state.

And because we, the Haves, have all these things now, today, in our actual world, we have something for which to fight today, now, right here, without waiting for the better world and the brighter future.—New York Times.

China's Loss Great

China in her war with Japan has lost, in killed and wounded, about as many soldiers as the total population of Texas, more than three times the population of Philadelphia.

Four Homes, Four Bombers

Four average homes could be heated for a year with fuel oil from a tank car, but four heavy bombers would stay aloft less than 11 hours using the same amount of gasoline.

Lettermen Hold Initiation

The high school lettermen club held their annual initiation of the new incoming lettermen Wednesday. There were six new members admitted to the club after several hackings, they were John Edwards, Stanley Daugherty, manager, Clyde DeWitt, Darrel Jenkins, Lawrence Keele and Merlin Vashinder. The new members had to come to school dressed in bur-lap sacks and wearing their clothes inside out. Eggs were put in their pockets and much lipstick and rouge was put on their faces and hands. To top it off tape was wrapped around their legs in the morning and was slowly pulled off at noon.

Pearl Harbor Commemorated.

In commemoration of the event at Pearl Harbor December 7, 1941, a short home room meeting was held last Monday afternoon for the purpose of selling war stamps and bonds. A grand total of \$296.30 was reached. This included the sale of five \$18.75 bonds. So many students bought stamps that it took the office girls nearly two periods to take care of home room stamp orders and it has been impossible to determine accurately which home room sold the most stamps.

Class Chooses Flower

The white rose was chosen the class flower at the senior class meeting Thursday, December 3. The class colors chosen were scarlet and white. The colors scarlet and white and the blue gowns worn at Commencement will make the patriotic color scheme desired by the class. The motto is to be chosen at the next meeting.

Brown Joins Navy

Jim Brown, a junior who moved here from Fresno, California, at the beginning of the school year, has dropped from school and has joined the U. S. Navy as apprentice seaman. He left Saturday for Fresno to visit his father. Jim will be called to the Navy in two weeks. He will receive his training at San Diego. Jim was the cartoonist for the Newsette.

Navy Gets Another

Uncle Sam is getting another one of our high school students. Bill Pruitt, a senior, leaves December 24 for the navy. He withdrew from school Monday, December 7.

Jack Henry, junior also withdrew from school Monday.

Latin Club Elects

New officers were elected in Latin club Monday. They are as follows: President, Bob Moore; vice president, Shirley Allen; secretary and treasurer, Irene Schaffer; project member, Ethel Mae Allen.

Shop Room Elects

The freshmen shop home room elected the following officers at their last meeting: chairman, Nolan Makinson; vice chairman, Dolores Meyer; secretary, Rosemary McCregler; and treasurer, Jake Palmer.

Soph Home Room Elects

Sophomore home room No. 4 elected the following officers at their last home room meeting: Delbert Miller, president; Gale

Lebow, vice president; Donna Marlin, secretary; and Marjorie Peters, treasurer.

One Act Play Presented

Julia Tomlinson Shick is not one to be fooled by mere rumor. Here, therefore, it has been rumored that to present a serious drama to C. G. students is an impossibility, because they do not appreciate "Art." Mrs. Shick didn't believe that rumor, and, to prove her point, presented "The Valiant," well-known one-act play in assembly Friday, December 4. The enthusiasm with which the play was received by the students proves that a good dramatic play has even more appeal for high school students than slapstick comedy.

The extremely capable cast was chosen from the sophomore class by Mrs. Shick. Especially effective was Robert Moore's interpretation of the difficult role of "The Valiant." Top-notch performances were given by all of the supporting cast—Ben Hickey, Alan Aspey, Aileen Shaw and Leon Lemon.

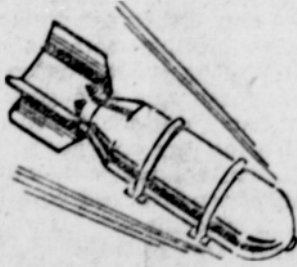

School Briefs

Betty Blake, sophomore, withdrew from school November 24 to move to Richmond, California, where she will attend the Richmond high school. Betty's father is employed in a defense plant in Richmond.

The total amount of magazine sales was \$251.75. The Freshmen led in sales with \$72.50, followed closely by the sophomores with \$67.25. The juniors turned in \$61.50, and the seniors with \$37.50. The junior home room 17 led all home room sales with \$38.75.

What You Buy With WAR BONDS

American flyers with the RAF are raining demolition bombs on Nazi cities today. These instruments of destruction so important in razing Nazi war plants, interrupting railroad transportation and other war objectives, range now unto several tons.

The 500-pound demolition Bomb is one of the lighter ones. Bands are attached to facilitate handling and the fins are not attached until the Bomb reaches the airfield, because bending would injure accuracy. They cost up to \$50. Your purchase of War Bonds through the Payroll Savings Plan will help provide Bombs for our airmen. Let's "Top that Ten Percent."

THINGS TO COME

Enameled curtain rods of wood and fiber and medicine cabinets of wood... A synthetic chewing gum of no chic—made with coagulated latex... Quick-flaring kindling sticks—five for a coal fire, three for a wood-burning fireplace. They're called "Kin-del-Kwik."... A red-tipped plastic "Victory Thimble" which has a deep opening to fit over long fingernails, introduced by Pacific Mills... Plastic hammers that are rustproof, acid-proof and are said to be durable... Paint brushes of Nylon instead of the natural bristles from China's razorback hogs.

Gold Standard

A country goes off gold because it lacks sufficient gold to redeem its currency. In other cases, as in the United States, gold is abandoned as a matter of political policy. Switzerland is about to try an entirely new method. Shortly it will conduct a plebiscite allowing the people to decide whether they want the gold standard.

Range Lands Carry Big Load
Range lands in 17 western states support 45 per cent of all the cattle, 58 per cent of all the beef cattle, and more than 70 per cent of all the sheep raised in the United States.

COUNTY Credit Board

Part of a permanent, state-wide organization of business and professional men to improve credit conditions, operating in every county in Oregon and in more than 20 other states.

MONTHLY DELINQUENT LIST ISSUED

Delinquent debtors trailed from county to county, and from state to state. Members exchange information, through the medium of our state office, reporting those who do not properly respect their credit. We do not guess at credit information, but in our report to members we list debtors names, addresses, and amounts of their indebtedness.

ALL DEBTORS NOTIFIED

Before listing the name of any debtor, we give him due notice and ample time in which to take care of his past-due accounts. It is not our purpose to embarrass any man, rich or poor, who DOES HIS BEST TO MEET HIS OBLIGATIONS. Names of debtors are not removed for any reason until their accounts are paid.

UNPAID CLAIMS OFFERED FOR SALE

The man who pays is welcome everywhere, but the man who does not pay soon becomes a social outcast.

NO COMMISSIONS ON COLLECTIONS

Where payment is persistently refused, unpaid claims are offered for sale to the highest bidder, and are sold for whatever they will bring, for the benefit of creditors.

We are not operating a collection agency—debtors must pay direct to their creditors. No filing fees. No docket fees. When collections are made, you get the money. No contracts to sign and regret.
