THANK YOU!

The people who live in the towns and villages along Southern Pacific's lines in the West have just provided a fine example of war-time cooperation.

We think this cooperation deserves recognition and we want to say "thank you" . . . since Southern Pacific was primarily concerned. And we're quite sure the many thousands of men in uniform who benefited too, would also like to join us in this expression of appreciation.

Early in December we were faced with the problem of providing transportation during the holidays for a very large number of men in the armed services who were to be given holiday furloughs. Because of the pressure of war traffic on our equipment . . . cars and locomotives . . . we knew that we could not provide transportation for all these service men and the normal number of civilian holiday travelers too.

So we arranged a somewhat drastic and extensive program requiring coach reservations for virtually all trains, and set aside a major portion of both Pullman and coach space for the service men. Then we ran advertising telling people what our problem was, and why we could not take care of everyone who would like to travel during the holidays. We asked people not to "Try the Train".

As a result many people gave up holiday trips they very much wanted to make. The amount of civilian travel, compared with December, 1941, was considerably reduced and we took care of the service men in good shape. There was comparatively little congestion, and all essential travel was accommodated.

So we know that people generally have cooperated . . . and we give you all a hearty "thank you."

May we also express our appreciation at this time for your considerate and understanding attitude towards Southern Pacific and its service during the last twelve months?

We hope you will continue to confine your trips, in 1943, to essential travel.

A. T. MERCIER, President
