Reduce Moisture Content

In making lard, the moisture content must be reduced to about 2 per cent to insure keeping quality, and cracklings must be well browned before this stage is reached. Meat scraps sear easily so they should be removed before the lard is rendered.

Fluorine in Forage Crops

Fluorine in fertilizer does not increase the content of this element in forage crops to any dangerous extent.

Judging Fabric Quality

To judge the quality of any fabric if you don't know the manufacturer hold the material up to the daylight. The threads should be close woven and flawless, and the cloth should feel soft. See that it is equally well finished on both sides.

War Stamp Sales Over Half Billion Dollars, Album Drive Opens

Appealing Margaret C. Russell of the War Savings Staff takes up this new Treasury poster which will be seen from coast to coast. It pictures retailers' slogan, "SAY YES." A drive is underway for Americans to buy additional War Stamps to fill albums and convert them into War Bonds.

WASHINGTON, D. C.—The nation's retailers from the tiniest hamlets to the mighty cities are acting as a spearhead in a great Treasury Department campaign to sell the additional War Savings Stamps needed to fill more than 100,000,000 albums now in the hands of the American people.

According to a report released by the Treasury Department today, sales of War Savings Stamps totaled \$559,777,000 for the period from May 1, 1941, through November, 1942.

Stamp sales have risen from less than three million dollars per month when they were first introduced to the public to an average of more than fifty million dollars per month at the present time.

The Treasury's slogan, "A half-

filled album is like a half-equipped soldier," has been adopted officially by retailers for the campaign.

The importance of the drive is seen in the fact that a War Bond potential of nearly two billion dollars hangs in the balance.

Every War Stamp album, converted into a People's Bond, for which the purchaser pays \$12.75 and which matures to \$25.00 value when held for 10 years, adds its force to the war effort.

The Treasury Department is counting upon the country's school children to play a powerful role in the success of the SAY YES drive.

The volume of stamp and bond sales is at the rate of \$200,000,000 for the current school year.
