

Oregon State Celebrates Diamond Anniversary

These pictures represent 75 years of physical, military and administrative development of Oregon State college which celebrates its diamond anniversary on "charter day," October 27, the date when the Oregon legislature in 1868 designated old Corvallis college, shown in old print, as the land-grant college for Oregon. Other picture shows most recent military

ceremony on the campus when the first 11 men in the Army Specialized Training Program to complete their course were given certificates by the college at a special review. Inset are President Harrison C. Dale, left, president of the University of Idaho, who will speak at the evening ceremony which will be broadcast, and Dr. A. L. Strand, president of the college.

LOST RATION BOOKS TO BE RETURNED

Under arrangements made with the Post Office department, finders of lost ration books may drop them in the mail without prepaying postage or enclosing them in envelopes, the Office of Price Administration announced Monday.

On payment of a five-cent postage-due charge, the Post Office department will return the lost book to the person whose name and address appear on the cover. When the addressee cannot be found, the Post Office will forward the book to the nearest local war price and rationing board.

While the percentage of lost ration books is low, the problem of returning them is important to the owners, who of course need them for use in buying rationed foods. In making it as convenient as possible for a finder to return a lost book, OPA believes the number of returns will be increased.

LANE COUNTY GREEN GUARDS WIN HONORS

Ellsworth Cross of McKenzie Bridge is the winner of first place in the State Green Guard Activity contest. This summer he was given credit for evidence that convicted a transient of starting a fire in a closed forested area. The award for first place is a choice of a bicycle or a \$50 war bond.

Yvonne Prialux of Eugene is a third place winner and has a choice of a sleeping bag or \$12.50 in war saving stamps.

Three Lane county guards are winners of a Green Guard sweater award for their enthusiastic participation. These guards are: Harold Louderback of Goshen, Paul Bailey of Junction City and Betty Cople of Lorane.

Margaret Dotson of Mapleton; Robert Tallefson, route 3, Eugene; Othal Lee Forgey, McKenzie Bridge; Martha Pratt and Eilene Pratt of Swishome are winners of the Green Guard Sport Shirt award.

Under the leadership of E. A. Danielson, County Green Guard

committeeman, Lane county has developed one of the largest and most active units in the state.

There were 9600 Oregon Green Guards eligible to compete for the awards offered by the Keep Oregon Green association.

Determines Weather

Weather in the northern half of the United States is largely determined by the great low pressure atmospheric area south of the Aleutians.

Wax Oranges

The shellac coating formerly applied to oranges to prevent their shrinkage in transit has been replaced by a wax coating to save shellac for war use.

What is America Fighting For?

Fair Trial by Jury!

(One of the Essentials of a Democracy)

In America the everyday common right of all men is the right to a fair trial by a fair jury.

Fair trial by jury is the insurance we have on our lives, liberties, and our property. That's why jury trial is one of the essentials of a Democracy.

On this firm foundation of justice has flourished our nation where a man has the right to work and save, and build for the future—and enjoy the fruits of his labor, with full confidence that his rights will be protected.

In such an atmosphere of freedom and justice man can create effective tools for war as well as for peace. That's why our tools of war are streaming ceaselessly to help America win through... to Victory!

In war any waste is a crime. Do not waste electricity just because no ration tickets are required!

LUMBER MARCHES FORWARD

—Just As Tomorrow's Citizens

—TREES FOR TOMORROW!

THEY ARE GROWING UP TOGETHER... tomorrow's citizens and eight million acres of junior forests on the West Coast. Trees are a resource that can be renewed, and lumbermen are growing trees!

Yes—the forest industries ARE making real progress in a program of protecting junior forests from fire and renewing the old forests. Logging is planned by foresters to leave at least 32 acres of seed trees on every section of harvested timberland. And the forest industries—logging, sawmill, pulp, plywood and shingle companies—operate the West Coast Tree Farms' Forest Nursery near Olympia, Washington, with production of five million seedlings a year.

Despite giant war demand for West Coast Lumber and timber products, private enterprise is acting NOW to provide trees for tomorrow's citizens.

Visit the Forest Nursery at Nisqually—8 miles north of Olympia on the Pacific 99 Highway. SEE how lumbermen grow trees for planting on burned areas.
