Our 1943 Inventory

In discussing the right of an individual or firm to exist, one frequently hears the question, "Well what are they worth to the community and section in which they live?" The usual yardstick is by the firm's or individual's payroll, taxes paid, contributions, etc., but oftentimes this is only a fraction of the real worth of the individual or firm. The real worth is measured in the service rendered. Just for the fun of the thing we've tried to figure as best we could our net worth to South Lane county in the year 1943 in so far as the help we might have been in publishing a newspaper. The figures presented below were taken from measurements of the Sentinel now on file at this office and open for inspection. Of course we realize that our industrial financial contribution to the community is only a drop in the bucket compared with some firms yet it takes us all to make for a stable locality.

We figured one of what we believe to be a popular feature down to a fine point and found that the type set for this feature represented 514 square feet. One item we could not reduce to lines, feet or inches is the ultimate effect of what you see below or how much it might have influenced the public.

News and editorial matter to further the war effort, exclusive of campaigns and drives	62,400 Words
News and editorial matter in interest of drives and campaigns connected with the war	40,000 Words
News matter about clubs' lodges and civic organizations	200,800 Words
Religious and church news including church announcements	41,600 Words
Farm news of interest to farmers and gardeners	59,000 Words
City briefs about you and your friends	112,800 Words
Rural news from neighboring localities	66,560 Words
News about our schools	40,000 Words
State and national news	80,000 Words
Editorial matter in the interest of civic affairs	20,800 Words
Editorial, other	41,600 Words
Servicemen's News	84,000 Words
Pictures and cuts	2,600 column inches
Miscellaneous	449,600 Words

In the event you don't know what a column inch is, it is ordinarily eight lines of eight point type. Since each line contains about five words, a column inch represents forty words. The rest of the paper is gravy to the publisher if you are wondering where we come in.
