Bowling News

Friday evening the winter bowling tourney underway at the Cottage Grove Recreation alleys ended with two teams, Quality Market and Capital Lumber Co., tied for first place with 17 games won and 10 lost. Monday evening the tie was played off. Quality Market topped the lumber crew by winning two out of three games to give the market boys undisputed first place. The ten teams thus finished the winter event in the following order: Quality Market, Capital Lumber Co., Gustafson's, Daugherty Lumber Co., Shell Oil, Texaco and Standard tied for fifth place, C. G. Cleaners, Safe Way and Irish Swartz. The winning team received a cash prize of \$52.50, the second team \$35.00, the third \$25.00 and the fourth \$15.00. In addition each team member received \$1.00 for each game won.

The spring tournament starts at the alleys Monday, March 20, but the call of the army and navy has changed the lineup somewhat with lack of manpower the reason for the absence of several usual players. New teams entering the spring event include one for the Smart Shop, one for Dr. Monahan and two for Art Weinkauf's Cabbage Grove Cleaners—both women teams (The women do all the work at this joint anyway, so it was decided they might as well play while Art does the fighting for his country.) H. L. Wolfard, who thinks he is holding an ace up his sleeve got wreckless in the cellar position and challenged the winner of the winter tourney for a three game series, the winner take all.

Corbett Once SP Telegrapher Now General Manager

JAMES W. CORBETT

From "telegrapher to general manager of Southern Pacific" reads the career story today of J. W. Corbett, whose promotion to succeed the late C. F. Donnatin has just been announced by L. B. McDonald, vice president in charge of operations for the railroad.

With headquarters in San Francisco, Corbett will have jurisdiction over the company's operations west of Ogden, Utah and El Paso Texas. Assuming his new position March 1, he announced that his former post of assistant general manager would be filled by R. E. Halliwell, promoted from general superintendent of transportation.

As in the case of President A. T. Merrier, and many other high executives of Southern Pacific, Corbett rose from the ranks. He joined SP at Portland in 1915 as a telegrapher, took time out to serve with the Army in World War I, and then returned to railroading. Service as train dispatcher, trainmaster, assistant to the general manager and division superintendent led to his appointment as assistant general manager in 1942.

New City
A new city will be founded in the Brazilian jungle soon, according to a recent announcement of the office of the economic co-ordinator which is sponsoring a "March to the West." The city will be established on the Araguaya river, between Mato Grosso and Goyaz, in an area rich in gold and other minerals.

Turkey Crop About Same As Last Year

Turkey production in this section will be about the same as last year according to information based on hatchery orders. Uncertainties over the market outlook has caused quite a few growers to drop out, but the increased size of the flocks and new growers are expected to take up the slack. Prospects are that the ceiling prices may be greater than last year.

Chicken production so far as can be determined at this time has been drastically cut, except for layers.

Mosby Creek

The Mosby creek unit club met all day Thursday at the home of Mrs. Ada Overton. Mrs. Roby and Mrs. Morris put on the demonstration of repairing of furniture in the home. The next meeting will be at the home of Ellen Land. Lester Rearrick who has been at the naval training station at Faragut, Idaho is spending a fifteen day leave with his wife, Mrs. Vena Rearrick.

Mrs. Lee Dugan and Mrs. Fannie Patton went to Portland the first of the week and brought Pvt. and Mrs. Leo Dugan home for a few days visit. Pvt. Dugan is home from the east coast on a furlough. Mr. and Mrs. Mack Tonoli and children visited in Eugene Sunday at the B. F. Smith home.

Mr. and Mrs. Ed Tullar of Eugene and Mac Tullar of California visited at the home of their niece Mrs. Lee Dugan Sunday.

Callers Sunday at the Harry Castle home were Mrs. Grant Duley and three sons of Knox Hill, Mrs. Berta McGuire and two sons of Walden and Pvt. Leon Lancaster of Camp Adair.

Mrs. Sam Russum has been quite ill with the flu.

The patrons of the Blue Mt. school district are putting on an amateur program and pie social Friday night at the Blue Mt. school house.

Pvt. Paul Anderson of Bloomington, Indiana, spent his week's furlough with his brother, Eugene at Richmond, Virginia, who is an instructor in a naval diesel school.

NEW FARM GASOLINE RULES

To aid in the drive against the black market in gasoline, the Office of Price Administration announced that after April 1 the five-gallon "R" coupon will be invalid at filling stations and may be used only by those who buy gasoline at bulk plants or who have it delivered into storage

tanks on their premises. Farmers buying most of their gasoline at filling stations have until April 1 to exchange at local boards their "R" coupons for "E" coupons, which will be accepted at filling stations. After March 15, "R" and "E" coupons in all cases must be endorsed whether for gasoline delivered into storage tanks or picked up at filling stations. However, to ease the task of endorsing these coupons, the consumer buying a large quantity of gasoline may endorse a whole strip or block with a single signature and address written across the required number of coupons given as a unit for his single purchase. For one gallon of gasoline he continues to endorse one "E" coupon.

150,000 PLANES SINCE MARCH, 1941

Of the 150,000 planes produced by the United States since March, 1941, the U.S. has retained 122-

000 for its own use and has shipped 28,000 to its Allies, the Foreign Economic Administration has announced. The Allies paid cash for almost 7,000 planes and received more than 21,000 under Lend-Lease. The British and Russians

produce most of the planes they are using, but American Lend-Lease planes with British, Norwegian, Polish, Czech, and other Allied pilots are playing a vital role against Germany.

ATTENTION VEGETABLE GROWERS

Cucumbers for Pickling

We are now contracting for 1944 crop. Crop to be received locally. Prices are now the highest on record and will allow you to pay competitive wages.

Pickles are a valued diet for the armed forces. A field man will call on you. Leave your name and location at Martin Motors, 24 North 9th Street, Phone 19.

If You Can't See the Tread--See Us

When your tire has the first sign of a smooth appearance, when the tread has worn off—that is the time to see us for recapping service. Every mile you drive beyond that point endangers the life of that tire. As the casing rubber wears off you get near the cord fabric, which means that continued driving could very likely ruin it altogether so it could not be recapped. Further, it heightens the possibility of a blow-out.

Just A Little Care Will Save Your Tire

All you have to do is use normal care. Drive within today's speed limits. Don't make jump starts or stop too suddenly. Don't bump over curbs. Check wheel alignment. Have tires inspected regularly. Maintain proper air inflation. Occasionally change wheels from front to rear. The rear right tire wears out faster than the others. Best of all, look to us for tire guidance. We'll keep you rolling!

Every Turn of the Wheel Means That Much Added Wear

Repair and Recap Now!

A small stone bruise or cut may not seem very important to you. But every time your wheel turns you aggravate it that much more. Tires flex when your car runs. That is a constant expanding and contracting. A minor repair may save your tire, and possibly your life. Let us attend to it promptly when it is time to recap. Don't wait—do it then.

Don't Gamble on New Tires — They Will Be Very Scarce

The more people who become eligible for new tires the less chance you have. New tire production will be far less than the original 30,000,000 estimate, and that was only slightly more than one tire for every passenger car. Actually, LESS than one tire per car will be made this year. That leaves at least three tires to depend on the best of service promptly—efficiently—carefully. Heed our good and sincere advice and you'll drive through the emergency.

Do Your Part—And We'll Do Ours

Remember Us When in Need of Truck Tire or Tube Repairs.
