

Summer-proof Now--A War Time Necessity

Why Summer Proof?

"I wonder if the average motorist ever stops to think," says R. L. Angst, General Petroleum distributor, "why various parts of his car should be Summer-proofed. In driving 2,500 miles, the radiator water circulates 15,000 times, the tires revolve 1,875,000 times, each spark plug fires 3,750,000 times, the crankshaft turns on its bearings 7,500,

000 times. No automobile is dependable or economical unless parts are checked, serviced and lubricated. That's the reason for the special offer of Summer-proof checkups. Summer-proofing is peace-of-mind insurance."

TIRES FOR SMALL TRUCKS

Small trucks delivering essential food, laundry, drugs and medical supplies and dry-cleaning apparel, and trucks operated by medical or dental laboratories will be able to obtain new truck tires of eight or less ply and all sizes

of new passenger tires, OPA announced. Delivery trucks for beverages, ice cream, retail stores, confections and tobacco products, heretofore ineligible for any tires, will now be able to get used passenger tires, used truck tires smaller than 7.50-20 and obsolete sizes of new passenger tires.

RATION HOURS CHANGE

Beginning April 29 the hours for the local Ration Office to be open on Saturdays will be from 9:00 a. m. to 1:00 p. m. and on Thursday evenings from 7:00 to 10:00 p. m. according to the chairman of the Ration Board.

Many Auto Failures Due to Carelessness

"Too many automobile failures in this country are directly due to carelessness," declares Geo. Hohman at the Red Horse Mobilgas station, "and too many motorists are getting repair bills that could have been avoided. Managers of auto dealer's service departments estimate that as high as 67 percent of car repairs are due to failure of owners to give them proper periodic maintenance, regular inspection, regular oil changes and lubrication. Our semi-annual checkups (called Summer-proofing in the spring) help avoid conditions which often lead to costly repairs or the actual layup of a car. The specials we now feature include inspection and lubricant change services that are really essential to long car life."

like inside finish of your motor is due for a lot of scratching. A good cleanout is essential to increase car life and efficiency."

Mosby Creek

Mrs. Herman Gleaser was taken to the Sacred Heart hospital last week and is quite ill.

Mr. and Mrs. Ted Simpson have bought a house in Cottage Grove from Basil Denham and are moving this week.

Mrs. Lee Dugan received word from her daughter-in-law Mrs. Leo Dugan that Leo had arrived overseas.

Mrs. Lenn Eastburn gave a stork shower honoring her niece Mrs. Lewis Conley (Wanda Eastburn) last Thursday. Several from

here attended and lunch was served after the presents were opened.

Mr. and Mrs. Jack Cline and family visited Sunday at the Arnold Duerst home. Everett Duerst left Monday night for Faragut and expects to be sent out from there.

SEWING MATERIALS RECEIVED BY RED CROSS

More sewing materials have been received by the Red Cross surgical dressing according to Mrs. W. E. Lebow. After today April 27th the Red Cross rooms at the Masonic building will be open Fridays from 2:00 to 4:00 p. m.

Now that additional material has been received all that's needed is more workers.

Your Nose Knows

"If you were compelled to lie on the running board of your car and breathe in road dirt for just one hour, what would happen to your nose and head?" "It might be so choked with pollution as to put you in the hospital. Your nose knows this dirt is no good for you. Now, consider your helpless motor. It sucks in this gritty, abrasive material, through the crankcase breather, in the quantity of one and a half pounds in 5,000 miles. No wonder the crankcase should be flushed out during Summer proofing. If it isn't the mirror-

No New Cars in Sight!

Make yours last

SUMMER-PROOF NOW

FOR FOUR OUT OF FIVE motorists there'll be no new cars for at least two years after the war. So, it's only good judgment to take care of the one you have.

To help make your automobile last longer—perform better—have it Summer-proofed. Summer-proofing means having your Mobilgas dealer inspect your car and perform those services which it needs at this time of year.

Keeping cars in service is a job shouldered by thousands of Mobilgas dealers who are equipped to nurse along aging motors—stretch the life of precious tires—and squeeze extra miles from automobiles and gasoline.

Your Mobilgas dealer is a good man to know—a friendly, helpful man to consult. See him about the Summer-proof services your car needs.

Federal Tires

Top Quality Since 1908

Famous long-mileage Federal Tires give the security and satisfaction assured by a 36-year record of top quality. If O.P.A. regulations qualify you for new tires, ask your Mobilgas dealer about Federal positive-grip tires that give all-direction skid resistance, and have long-wearing tread.

When your tires need re-capping, see your Mobilgas dealer and get the advantage of quality workmanship and good, dependable material.

Ask your Mobilgas Dealer about the
G.P. Battery

To day, when dependability in a battery is especially important, a G. P. Battery gives a real sense of security. The quality that is built into G. P. Batteries means longer life, maximum power and lower ultimate cost. G. P. Grid Design gives greater capacity.

Have your Mobilgas dealer service your battery frequently—and re-charge it when necessary.
